STEP 1

Screw connecting bolts (CB1) as shown on the panel below.

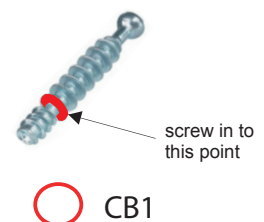

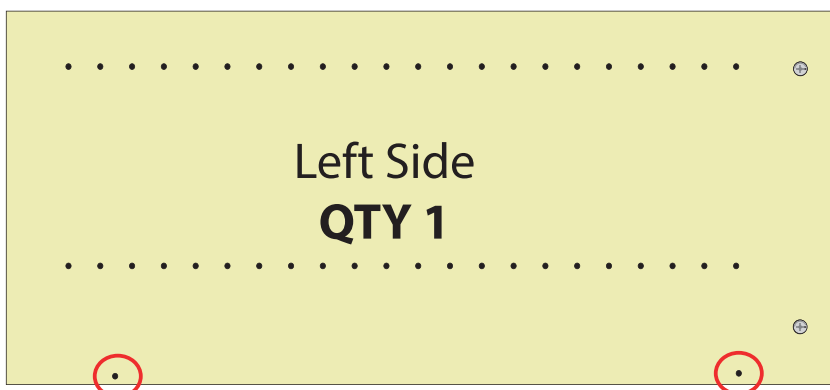

STEP 2

Insert connecting locks (CL1) as shown on the panels below

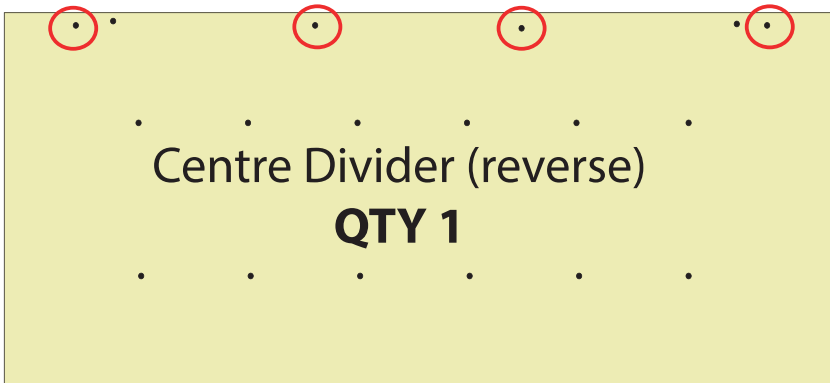

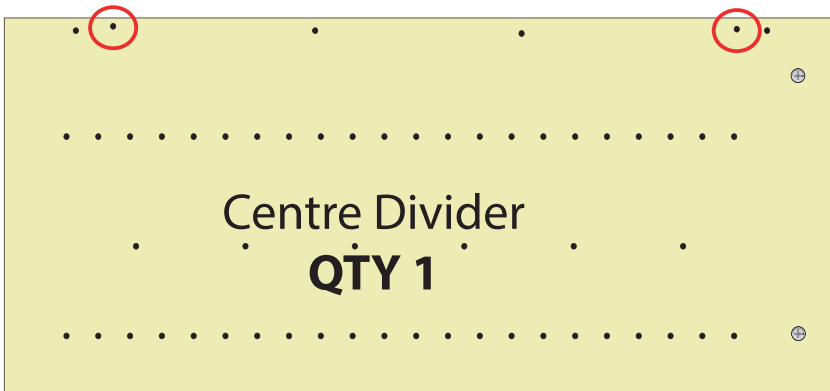

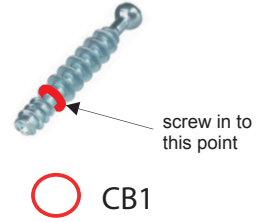

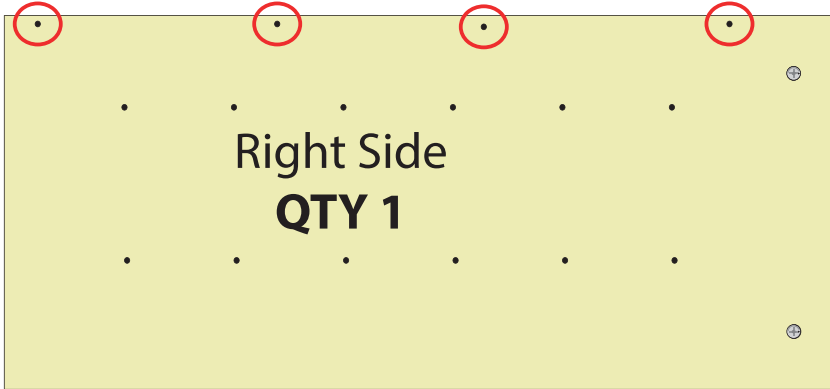

STEP 3

Screw connecting bolts (CB1) as shown on the panel below. Then insert connecting locks (CL1) as shown.

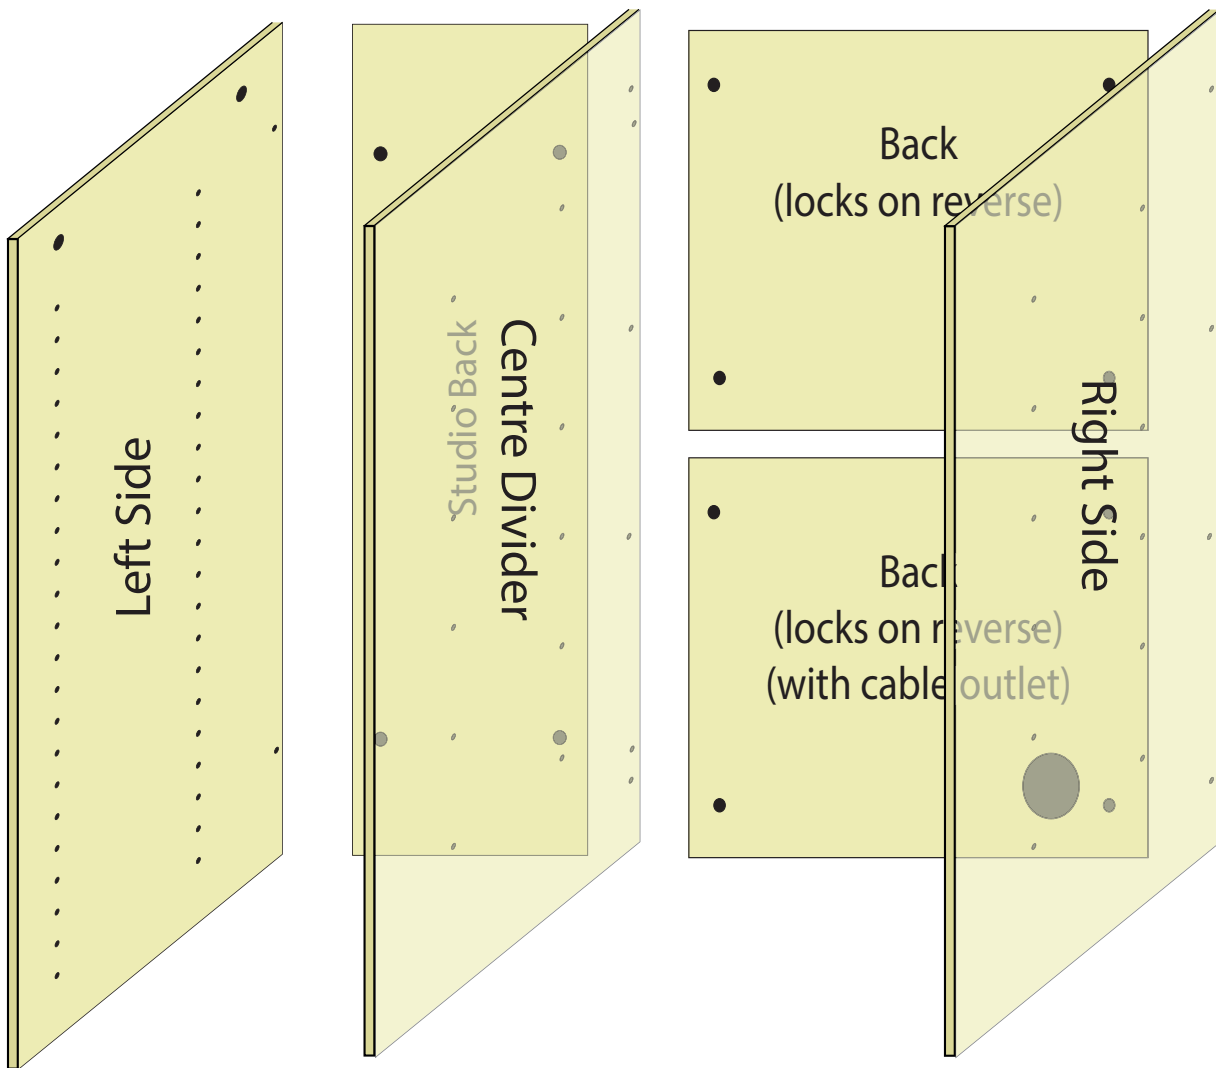

STEP 4

Screw connecting bolts (CB1) as shown on the panel below. Then insert connecting locks (CL1) as shown.

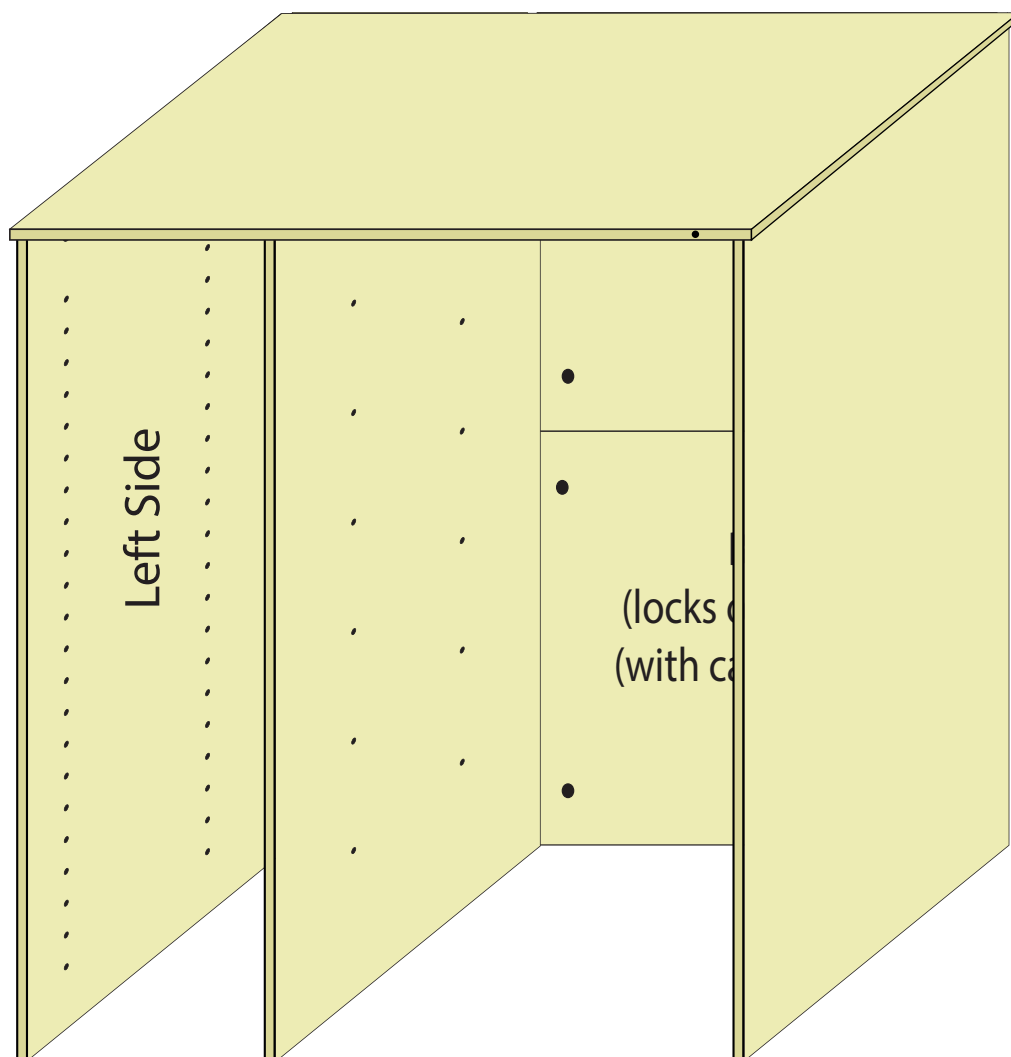

STEP 5

Attach the **left side**, **studio back**, **centre divider**, **two backs** and **right side** together as shown below. Once slotted together ensure you tighten all of the connecting locks.

STEP 6

Attach the section you have already constructed and **top** together as shown below. Once slotted together ensure you tighten the connecting locks.

STEP 7

Insert shelf pegs and studio shelves to the left section as shown to fit the studio trays.

Use shelf pegs to fit the adjustable shelves to the right hand section to suit your requirements

Sml Shelf
QTY 3
