

BlockBox Add-Ons

Product Variations With Mounted Cameras

The BlockBox Lab XL can be purchased with a camera mounted either internally or externally, depending on your device interrogation needs and budget.

Webcam Mounted Internally and Connected Tablet Mounted Externally

This variation includes an Anker PowerConf C200 2K Webcam mounted internally to the lid, connected to a Microsoft Surface Pro 7+ Tablet mounted externally to the lid. A shielded USB filter through the lid enables connectivity. The camera offers ultra-clear resolution from a wide field of view allowing users to view and record device interrogations. The Surface Pro 7+ offers high-speed performance, giving you premium laptop power from a powerful tablet.

Mounted Microsoft Surface Pro 7+ Tablet & Anker Webcam

Contact us for a custom invoice if you do not want the recommended tablet included.
