Instructions for: **Feather White**

Feather White can be successfully used to lighten, brighten, and in most cases, do away with stained blumage on waterfowl and upland game birds without damage to the feathers.

Moisten stained area with water.

Using a soft applicator, like a piece of cotton, apply moderate amount of **Feather White** to cotton and stroke across the stain. Move in the direction of the feathers. Stain should begin to lighten immediately. For stubborn stains, repeat as often as necessary.

Rine **Feather White** from plumage after using.

DANGER-POISON: AVOID CONTACT WITH SKIN OR EYES. DO NOT TASTE, SWALLOW OR BREATHE. ANTIDOTE: Medical care required. **PHYSICIAN ALERT:** Specific antidotal treatment may be required. **EMERGENCY INFORMATION:** Call 1-800-321-9065. **FIRST AID:** Immediately do the following: Skin - remove contaminated clothing. Flush skin with cool water for 15 minutes. Eyes - Flush with cool water. Remove contact lenses, if any and continue to flush with cool water for at least 15 minutes. Swallowed - rinse mouth with cool water. Drink large glass of water or milk. Do not induce vomitting. THEN GET IMMEDIATE MEDICAL CARE.

CAUTION: Feather White is an acid and it is recommended to wear rubber gloves when using this product. Avoid contact with skin: rinse for several minutes in cool water. Avoid swallowing: if ingested, drink large amounts of milk or water. Avoid contact with eyes: flush with cool water for 15 minutes. Contains hydrofluoric acid.
