

Cora Sconce

Reminiscent of pharmacy lamps of the past, the Cora Adjustable Sconce is a play on early 20th-century style. This adjustable wall sconce features sleek lines, a classic conical-shaped shade, and comes in some slightly less traditional colors. Whether it is placed above open shelving, a desk, or a bed, it offers bright, targeted lighting exactly where you need it.

Available metal finishes are raw brass, chrome, or powdercoated matte black. The raw brass will develop a patina over time or can be polished occasionally to retain its beautiful brassy sheen. Shades can be any of our curated Sazerac Stitches colors or a custom powdercoating color can be selected for a fee.

Made to order by our team of light makers in New Orleans, LA. UL Listed for dry locations, indoor use. Damp rated sockets available by request.
