ARTIS Products —The EVOLUTION in RV Water Pumps

NEW SWITCH

- Sealed Wires—Protection against damage to wires and terminals.
- Sealed Switch Box—Protect switch from moisture and flammable fumes from entering into switch.
- Marine Design—Improved performance and longevity
- 100,000 cycle rated—compared to competition at 20,000 to 22,000 cycles.
- Ignition Protection— Artis is the only water pump in the RV industry that offers this protection.

SEALED MOTOR

- Low Noise Level—ARTIS Products water pumps have the lowest rated decibel levels in the industry.
- Epoxy Coated—Marine coating for superior corrosion resistance.
- Higher Flow Rates—Pump Head design coupled with four valves provides extremely efficient water flow.
- 2 Stainless Steel Bearings—Provides less resistance than brass bushings while reducing power consumption.
- Metal Brush Plate—ARTIS Motors are robust in design providing longer life.
