

Portable Air Infuser Operating Instructions

Product

Thank you for purchasing our Portable Air Infuser. This product adopts the latest cold spray technology. There is no need to add water or heat, an atomizer turns the essential oil into nano particles and distributes them into the air. The benefit of a waterless diffuser is you get pure essential oil aroma filling the air around you.

Essential Oil Infuser

Nozzle
with empty bottle

Type C Cable

Function

Operating Instructions

This infuser works with 10ml, 15ml and 20ml bottles of essential oil.

To Use:

1. To insert new bottle, gently push the nozzle up out the top of the infuser, by pushing on the replacement hole at the bottom - see figure A
2. Remove the nozzle from the empty bottle and place it into a new one - see figure B

3. Insert the bottle and nozzle back into the infuser from the top, ensuring the arrows line up - see figure C.
4. To turn the infuser on push down on the power button for 2 seconds.
5. To switch off hold the power button for 2 seconds.

Product Settings:

There are 3 spray settings, push down once to move between them.
- setting 1: alternates between infuse for 15 seconds on, 165 off
- setting 2: alternates between infuse for 60 seconds on, 120 off
- setting 3: alternates between infuse for 120 seconds on, 60 off

There is a timer functionality to ensure the infuser is not left on, press the timer button to activate the auto shut off. If the clock light is on it will automatically shut off after 4 hours. Press the clock button to change this to 1, 2 or 3 hours.

NOTE: The infuser has a memory function and will remember your default settings for the next time.

Charging: Use output voltage DC5V, a computer USB connection or USB adaptor. When charging the power button will flash and will turn off once fully charged.

Specifications

Size 69*138mm Charging voltage: DC5V1A

FAQ

1. How long does it take to fully charge? 2 to 3 hours.
2. How long will it run when fully charged? 30 to 50 hours.
3. What type of essential oil can you use? Use pure botanical essential oil or high volatile oils without impurities.
4. When the infuser is running, I can't see the mist, is this normal? Yes, this is normal, the nano particles are very small and difficult to detect with the human eye.
5. Can I adjust the setting to save on essential oil? Yes, there are three spray settings to choose from to reduce how much oil is used.

If the infuser is tilted at a 45-degree angle it will automatically stop working.

Once replaced to a standing position, it will automatically start working after 5 seconds.

Warning

1. Once the oil has been installed and used, the infuser can not be turned over or tilted.
2. Do not modify or disassemble the product to avoid damaging it.
3. Use when the temperature is between 10°C - 50°C
4. If device is not being used for long time, take out the essential oil bottle and store separately.
5. Keep out of the reach of children and pets.
6. Do not shake the infuser, as this will cause damage.
