

# Tick Attack™ Yard Spray

## Beta Test Program Year Two

### As we embark

on the second year of our Garlic Yard spray beta program, we would like to express our sincere gratitude to all the participants from last year. Your feedback was invaluable and enabled us to refine the garlic yard spray for our second year. In addition, we are excited to announce that we have utilized your suggestions to start developing another ground treatment that is also incredibly safe and effective. Please stay tuned for updates on our progress.

## Take Back Your Yard

### Tick Attack™ Yard Spray

Say goodbye to ticks in your yard with Tick Attack™ Yard Spray! This eco-friendly solution is effective in killing over 90% of ticks within two weeks of treatment and repelling up to 100% of ticks while present.

But don't just take our word for it! Here's what some of our satisfied customers have to say:

"I was very happy with the results. I have a large plot of land so I only used the product on my main lot which is about an acre of fenced in area. We only seemed to get ticks on us when we left to go to the other areas of my property that were not treated."

"We were getting a tick on us every other day or so before spraying, including just walking across the driveway from the car into the house. We have not seen a tick since spraying Tick Attack and we even did some more aggressive landscaping (going under many bushes, trees, etc.), which used to always result in at least a tick."

Don't let ticks ruin your outdoor fun! Order Tick Attack™ Yard Spray today and start enjoying your yard again.

If you would like to participate in our beta program simply email [admin@atlantick.ca](mailto:admin@atlantick.ca) and ask for more information.
