PROFESSIONAL FORMULAS

## What is Advanced Glucose Support?

Advanced Glucose Support is an innovative botanical and nutrient formula that works through multiple mechanisms to support healthy metabolic function, reduce sugar cravings, maintain glucose balance, and promote healthy cholesterol levels.\*

- Optimal Glucose Levels\*
- Sugar Craving Control\*
- Healthy Metabolic Function\*

## Balance Metabolism and Control Cravings\*

Advanced Glucose Support includes select ingredient blends drawn from traditional Chinese, Ayurvedic and naturopathic health systems, to deliver broad-spectrum support and protection for comprehensive metabolic health.\*

## Berberine Complex Blend

Berberine is a powerful plant alkaloid found in barberry, goldenseal, Oregon grape and other plant species. Research shows this active compound offers numerous benefits for metabolic

health and glucose regulation. ecoMetabolic blends berberine with several other botanical extracts to support healthy blood sugar and cholesterol balance, and optimize metabolic efficiency.\*

## Traditional Asian Botanicals

Extracts of Chinese yam, astragalus, ginseng and other traditional Asian botanicals in this formula offer

healthy glucose  
balance.\*

adaptogenic support for long-term metabolic health, mitochondrial function and overall vitality.\*

## Targeted Amino Acids and Minerals

Minerals zinc and chromium, along with amino acids taurine and alpha lipoic acid, support metabolic efficiency and reduce sugar cravings. Together, these researched nutrients complement the unique botanical extracts and ingredients in ecoMetabolic to offer synergistic support for comprehensive metabolic health and long-term wellness.\*

## How to Use

As a dietary supplement, take 1-2 capsules twice per day before meals, or as recommended by your healthcare practitioner.
