What is it?

Clinical Synergy[®] PectaSol[®] Metal Detox is a precise blend of specially modified forms of pectin and alginate that have been clinically tested. These patent-protected ingredients are PectaSol-C[®] Professional Modified Citrus Pectin, purified from the pith of citrus fruit peels, and Algimate[®] Modified Alginate Complex, purified from kelp seaweed.

Who can benefit from it?

PectaSol[®] Metal Detox is ideal for those who need intensive detoxification support to help fortify the body against environmental pollutants and heavy metals like lead, mercury, cadmium, and arsenic. It is also ideal for daily use, before, during, and after exposure, to support detoxification processes.*

What can you expect?

PectaSol[®] Metal Detox provides safe and gentle detoxification action in both the digestive tract and in the circulation without depletion of essential minerals.*

How does it work?

PectaSol® Metal Detox exerts a complementary dual action. Algimate® Modified Alginate Complex remains in the digestive tract where it works to trap and eliminate heavy metals and environmental pollutants. PectaSol-C® Professional Modified Citrus Pectin is readily absorbed through the intestine and binds to heavy metals and environmental pollutants in the body to facilitate excretion. Through this dual action, **PectaSol® Metal Detox** provides a comprehensive nutrition solution to fortify the body against exposure to heavy metals and environmental pollutants.*

How do you take it?

For long-term maintenance, take 1 capsule, 2 times daily, on an empty stomach, or as directed by your healthcare practitioner.

Are there any precautions?

Consult your healthcare professional prior to use if you have or suspect a medical condition, are taking any medications, or are nursing, pregnant or considering pregnancy. Take at least 30 minutes away from other supplements or drugs.

PectaSol® Metal Detox
works well with:

- Detox Complete®
