healthy urinary function\*

broad-spectrum prostate support\*

cellular regulation\*

## What is Complete Prostate Health?

Complete Prostate Health is a researched prostate formula that delivers powerful, evidence-based results for healthy prostate and urinary function, and prostate cellular behavior. Backed by multiple published studies and extensive clinical use, Complete Prostate Health is an advanced solution for optimal prostate health and long-term wellness.\*

- Broad-spectrum prostate and urinary support\*
- Cellular regulation\*
- Hormone balance\*
- Works synergistically with PectaSol-C Professional for enhanced results\*

## Researched for Healthy Prostate and Urinary Function\*

### Multi-targeted ingredients deliver broad-spectrum support\*

Complete Prostate Health combines 33 researched natural compounds—including potent botanical extracts, phytonutrients, antioxidants, and functional mushrooms—that work together to actively support

optimal prostate and urinary health, hormone balance, and immunity—with an emphasis on prostate cellular behavior. DIM (3,3'-diindolylmethane), a patented form of highly bioabsorbable curcumin from turmeric called BCM-95®, saw palmetto, pumpkin seed extract, and other researched ingredients in Complete Prostate Health exert multiple mechanisms to optimize and defend prostate health and long-term wellness and vitality.\*

## Multiple Published Studies and Clinical Data

Four published peer-reviewed studies, including a clinical survey in 65 men, demonstrate the benefits of Complete Prostate Health

optimal prostate health  
+ long term wellness

to actively support optimal prostate and urinary function, healthy gene expression, and favorable cell signaling behavior.\*

## Supports Healthy Hormone Balance\*

Complete Prostate Health contains a powerful active compound derived from cruciferous vegetables called DIM (3,3'- diindolylmethane). DIM is shown to promote healthy hormone metabolism and cellular regulation. DIM helps detoxify environmental xenoestrogens, which are shown to impact prostate health and other hormone-related areas of health. Complete Prostate Health delivers optimal amounts of this critical phytonutrient for prostate cellular health and hormone balance.\*

## Botanically-Enhanced Mushrooms Deliver Powerful Immune Support\*

Complete Prostate Health includes three species of our revolutionary botanically-enhanced functional mushrooms: *Phellinus linteus*, Reishi (*Ganoderma lucidum*), and Coriolus (*Trametes versicolor*). These mushrooms are cultivated on a blend

of immune supporting herbs and organic brown rice to deliver powerful immune support, and combined in precise ratios for prostate cellular support.\*

## Synergizes with PectaSol-C Professional\*

Complete Prostate Health has also been shown in published research to work synergistically with PectaSol-C Professional Modified Citrus Pectin, providing up to a 40% increase in prostate cellular health support compared to either product alone.\*

## How to Use

As a dietary supplement, for maximum support, take 1 capsule twice daily with food, or as recommended by your healthcare practitioner.
