What is Comprehensive Circulation Support®?

Comprehensive Circulation Support® contains the enzyme nattokinase, together with targeted botanicals, mushrooms and L-Carnitine to deliver comprehensive support for total-body circulation, balanced blood pressure, healthy lipid levels and overall cardiovascular health.*

- Cardiovascular Function*
- Healthy Blood Pressure*
- Optimal Blood Circulation*

Total-Body Circulation Support*

Nattokinase: A Powerful Enzyme for Circulation

The key ingredient in Comprehensive Circulation Support® is the enzyme Nattokinase, purified from the traditional Japanese superfood, Natto. Extensive research shows this single enzyme supports optimal circulation by promoting healthy clotting functions, balancing blood pressure, and supporting overall cardiovascular function.*

Nattokinase: A Powerful Enzyme for Circulation

Hawthorn, a berry-like fruit from trees of *Crataegus* species, is recognized for its ability to maintain healthy lipid levels, support strong blood flow, regulate heart rate, and increase natural antioxidant activity.*

Chinese Salvia root (*Salvia miltiorrhizais*) is widely used in Asian herbalism to promote

total-body circulation*

healthy blood flow and overcome what is referred to as “blood stagnation.” Research shows that this powerful herb helps maintain strong blood circulation, and promotes healthy levels of the biomarker, C-reactive protein.*

Beneficial Mushrooms

Comprehensive Circulation Support® also includes two organically grown mushrooms, *Ganoderma lucidum*, commonly known as Reishi, and *Cordyceps sinensis*. Research shows that Reishi promotes the production of nitric oxide, a key component in circulatory health. Both Cordyceps and Reishi are shown to support healthy circulation and blood pressure.*

Allergy Warning

This product contains Nattokinase, which is a soy derivative.

How to Use

As a dietary supplement, take 1-2 capsules, once or twice a day on an empty stomach, or as recommended by your healthcare practitioner.
