

GlyphoDetox™ Professional

glyphosate + pesticide defense*

pesticide + toxin removal*

thyroid support*

digestive defense*

What is GlyphoDetox?

GlyphoDetox is a daily detox and defense formula designed to remove pesticides including glyphosate and other environmental toxins, with additional support for key organs and systems. This targeted blend of natural binding agents helps to eliminate agricultural and environmental toxins, and prevent them from being stored throughout the body.*

- Pesticide and toxin removal *
- Thyroid support*
- Digestive defense*

Daily Pesticide Detox and Defense*

Broad-Spectrum Support against Pesticides and Other Toxins*

GlyphoDetox combines powerful yet gentle natural binders that work together to provide multi-targeted, broad-spectrum support against glyphosate and other pesticides and environmental toxins.*

GLYCINE

Competes with the common pesticide glyphosate to prevent uptake and storage in organs and tissues. Glycine also promotes the body's production of "master antioxidant"

glutathione, optimizing natural antioxidant and detoxification functions.*

SODIUM ALGINATE

Binds to toxins in the GI tract, including pesticides, herbicides, and environmental toxins, allowing for safe elimination.*

KELP

Binds negatively-charged toxins like fluoride, bromide, and chloride, glyphosate and other pesticides and environmental toxins, for safe removal. Iodine in kelp competes with these toxins at receptor sites, preventing them from being absorbed into thyroid and other tissues.*

UNMODIFIED CITRUS PECTIN

Binds environmental toxins in the gut, including DDT, radioactive compounds and others, as well as cholesterol. Supports healthy gut microbiome and GI tract integrity.*

FULVIC ACID

Binds to toxins including glyphosate and other pesticides, provides mineral and antioxidant support, and promotes a healthy GI environment.*

GlyphoDetox™ Professional

glyphosate + pesticide defense*

Helps Prevent Toxin Accumulation*

Ingredients in GlyphoDetox compete with specific toxins and compounds at key receptor sites throughout the body, helping to block their absorption and storage within organs and tissues.*

Digestive and Thyroid Support*

Soluble fibers and mineral-rich kelp provide additional benefits for thyroid function, digestive defense, healthy microbiome diversity, and other key areas of health.*

How to Use

As a dietary supplement, for intensive support take 2 capsules on an empty stomach, or as recommended by your healthcare practitioner.

Warning: This product should not be taken by persons with known hypersensitivity to iodine or hyperthyroidism. If pregnant, nursing, or taking any medications, consult your healthcare practitioner before use.
