

PROF. PINOTTE PEDAL CLUB

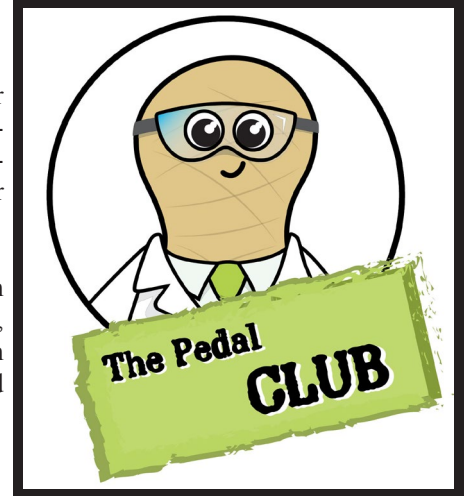

NEVER ENOUGH PEDALS? NEED MORE?

THE PEDAL CLUB HAS BEEN RUNNING FOR OVER A YEAR NOW. WANNA KNOW MORE? WANNA JOIN?

The PPPC has four different tiers, starting with the CURIOUS plan, at \$5 CAD per month, where you show support, get access to our Vault (this plan has just been updated to add access to the Vault, used returned pedal, cheaper, as reliable, only for members), get your personal discount of 10 % and stickers a few times a year, and our eternal gratitude.

From the first tier at \$15 CAD per month to the highest tier at \$50 per month, with the second \$25 tier in between, you have from 15 % to 25 % discount on every order, free shipping (in North America - shipping discount everywhere else) and free return with the Try-a-Pedal program, access to exchanges with your (pre approved) used pedals (GUP Tech credit).

You can learn more by going to our online store and clicking on the tab PPPC.

GUPTECH MERCH FOR EVERYONE, ALMOST

THE MORE WE SPREAD THE VIBE, THE MORE THE VIBE IS SPREAD...

We have received our new pick batch, with two new models and designs. Because they are so cool, I turned them into earrings, which make them even cooler.

Kids at school love Prof. Pinotte, so I made a colouring book, the first of many, I hope, we got some Pinotte temporary tattoos as well.

I made some t-shirts for us, and they turned out great, but not easy and quick to make. They will be coming, but very limited. More on that later..

WHY NOT? LET'S COMBINE THREE PEDALS AND PLAY WITH THE DESIGN! TAKE 2!

80'S BOF - BVR ON FIRE (KSTR-1982-PHNX)

OUR PHNX IS ONCE AGAIN INFILTRATING A TRIPLE PEDAL. DO WE HAVE A PATTERN HERE?

As I told you in last month paper, sometimes people have crazy needs, and I generally can find crazy ideas of designs to match them.

Here, you can feel nostalgic, at the same time super fan of Canada and its emblematic beaver. Waffle (that's the name of the beaver) showing off by wearing very (un)practical shade glasses, mostly for the looks. Not too far in the background, the spirit of the phoenix, emerging through the iconic maple leaf. Ô Canada!

This pedal is a custom request, and can be used to play music ranging from crunch to hard rock, not clean, but not metal. Available in pink, green and Douche green.

Curious about the custom multiple enclosures? They are not cheaper than the single pedals, and the design is chosen by me, always in relation with the original. Many of our now classics were born from special requests. Contact Guillaume if you are craving one!

THERE WILL BE T-SHIRTS

WE ARE TRYING SOMETHING, IT'S VERY DEMANDING AND LONG, BUT REWARDING AND FUN.

We bought a batch of organic cotton T-shirts in very limited quantity. We have some smalls, some medium, large, XL and XXL, and also some hoodies, up to 3XL. Mostly black and some grey medium T-shirt (don't ask why, I am still wondering).

Every T-shirt will be crafted one by one, the design will be cut and pressed. I have tried two at the moment, and they turned out great. We'll develop more designs and eventually publicize them. PPPC members will have a free text on a sleeve if they want. The S.U.N. Gate Tee is amazing.

DRUMMONDVILLE, TAKE 2

MAY 27 WAS OUR SECOND PRESENCE AT DRUMMONDVILLE'S MARCHÉ BELOW. PEOPLE CAME TO TRY OUT PEDALS AND IT WAS FUN!

We don't go out very often but when we do, we literally bring GUP Tech with us! We had over 100 pedals with us, ready to try, and even hot-rodded amps! Of course, we had gear and our table was the most colourful to look at!

See for yourself on the picture, where I am also showing off my tee-shirt, with glitter finish that WON'T be available for T-shirts because spoiler alert, the glitters are free thinkers and they go EVERYWHERE!
