

Coloring page

Be a kid, or find a kid, and send a photo of your art : @guptech or on our Facebook page, group or by email to emilie@guptech.ca. You could win a \$50 CAD GUP Tech gift card. We'll draw a winner randomly by the end of August (August 25, 2023).

OUR PEDALS ARE GETTING A LITTLE REVAMPING. LITTLE IN THE SENSE OF MASSIVE...

OUR DESIGNS ARE GOING UV-PRINT NOW

WE ARE MIGRATING TO UV-PRINTING NOW. WHAT DOES THAT MEAN TO YOU EXACTLY?

Unless you liked us exclusively for the adhesive vinyl that I put on pedals, or the unique and hand-made style it has, it doesn't change much.

All the pedals will be assembled by hand, by either Guillaume, Samuel or now Marcus (my son), tested by us, packaged by us, and tagged by us and the ideas and names still come from myself. What is changing is that some, soon most, eventually all the designs will eventually be printed on the enclosures instead of stuck by me.

Now, with this feature, I can give more depth to my drawings, more details and be... crazier! We were a little afraid of the result but we received the first units this week and it looks awesome!

The texts will be clearer, smaller and we can put more details around the knobs, if needed. You might start to see Prof. Pinotte more often there. He was hard to honor with decals but he might be UV-genic more!

THAT TIME WHEN PROF. PINOTTE MET JIMI

PROF. PINOTTE CAN DEFINITELY APPRECIATE SUCH A LEGEND, THROUGH A PICK....

A good friend of GUP Tech, Stéphane, went to Seattle to see Jimi, and he left one Prof. Pinotte pick on the large guitar. A part of the ritual around the memorial is to leave a guitar pick on the Strat monument to show appreciation and farewell to one of the greatest guitar player ever.

We are sure that the Prof liked his trip. Jimi Hendrix was one of the first to widely make inspirational uses of guitar pedals and the world wouldn't be the same today for us if he wasn't there.
