

OUR PEDALS ARE GETTING A LITTLE REVAMPING. LITTLE IN THE SENSE OF MASSIVE...

GUPTECH+NEBULA=PROF.PINOTTE STRAPS

BECAUSE THERE ARE NO REASON NOT TO DO IT

We met during the Great Canadian Pedalboard contest and we thought, straps are cool, Prof. Pinotte is definitely cool, we are cool (we may think what we like) and Evan from Nebula definitely is also cool. So much coolness all put together made us do it. Straps there were.

We believe in handmade products, of course, and we also believe that the music community, including builders and musicians, must stand together to make sure child labour and social media “noise” won’t win over us. This is why we chose to do business with a fellow Canadian brand instead of buying cheap stuff on a free shipping platform.

These high quality straps, made by hand, come in black cotton and we have one remaining with patterns. Check our store, and definitely check Nebula as well. They may look good on pictures, but they look better in real, they also feel good in hand, sturdy and perfectly assembled.

Made in Canada by real people, just like our pedals!

WHEN IT’S ALREADY FUN, DOUBLE IT FOR MORE

THIS MAY NOT BE ALWAYS TRUE, BUT YOU’D BE SURPRISE THAT IT IS OFTEN!

Our Pile O’ Rat is a very fun pedal. Why? Because it’s super versatile. It’s a true classic. It can be very aggressive, but also soft and sweet. We had been thinking for a while about doubling the fun, but never actually went there, until we did, obviously. This is a special edition, with fun colours and the same amount of rats, but they are bigger.

SYNTH AND PEDAL EXPO COMING IN AUGUST

THIS SUMMER, GUPTECH GIVES A PHOQUE !

THE NEW HOLY PHOQUE IS REALLY TO ROCK THE WORLD, AND HERE COMES A DEAL!

We asked you on social media about a name for our take on the Fuzz Machine. Yeah, Phoque Machine could have done it, but it was a bit much, don't you think? We couldn't go that far. Could we?

We decided to go for the already iconic "Holy Phoque". With UV printing, we now have access to a new range of designs with details and more of everything!

The Holy Phoque is a fuzzy-octav-ish boost to make you cut thru any mix. You can use the pedal as a standalone unit or with any of your favorite distortion-/fuzz/preamp to create a holy combination of tone! Pinotte Angel from above!

MTL KNOB-SESSION 2023

WE DON'T GO OUT OFTEN, EITHER AS A BRAND AND AS PEOPLE, BUT WE'LL DRIVE TO MONTREAL FOR THIS GREAT EVEN AGAIN.

This event is THE event for pedal or synth lovers, or both. Hosted in Quartier des spectacles at Esplanade tranquille, it is very much in the heart of the city.

Bring your guitar and come to see us and all the other manufacturers who attend the event. We'll have a guitar with us, two pedalboards and lots of pedals to try. We'll sell on site, and have a discount during the event. If you are near Montreal, please come and see us, we don't offer the opportunity to try before buying very often!
