

More U.V. Designs have been released.

CHECK THESE NEW UV DESIGNS IN OUR SHOP !

The migration towards UV printing is going well. We are concentrating on the designs that are the most complicated to assemble and that are good sellers, and of course, all the newer releases are designed solely for UV printing. I love all those details and it's so easy to adapt! Below, you can see the new D.O.Nut and Pile'O Rats, with our Penguin DOF, the latest pedal that isn't in the shop yet ! Stay tuned for more about him !

Our D.O.Nut, the same distortion and overdrive that you know and love, with a new flavour...

DOF, a fierce little penguin who has an attitude. We cannot tell you more for now.

The good old Pile'O rats, same tone, different rats.

BASSES AND GUITARS FOR EVERYONE !

ONCE AGAIN, THINGS ESCALATED QUICKLY. I STARTED PLAYING BASS IN AUGUST, AND LAST WEEK, I RECEIVED MY THIRD BASS. GAS IS REAL.

Gear acquisition syndrome (GAS) is a real issue that affects lots of people all over the globe. Will you resist it? Joking aside, we decided to celebrate "Christmas" earlier this year, because, because... Here is a gift that has been given to me by Prof. Pinotte. I was thrilled and it's a beautiful bass. I love it so much! I love the colour, the shape, the sound, the comfort, even if the shape calls for some adjustments. New relationships mean compromise. Also see a gift from Prof. Pinotte to Otis, a "metal guitar".

Otis and his new Jackson.

Meteora Player Plus Tequila Sunrise.

Headstock. Obviously.
