

PUT 'EM EVERYWHERE

PROF. PINOTTE'S STICKER SHOP

OUR SELECTION OF HOME DESIGNED STICKERS IS GROWING AND GROWING. NOW, YOU CAN BUY THEM!

You probably ignore that, but Prof. Pinotte was created a Pinotte (he was not a professor yet) when I had some weird ambition of running a planner sticker shop and actually stick to it (ugh). Breaking news, I grew out of it pretty quickly, and to be fair, I didn't really fit into the whole community, and this aspect was big. In the mean time, Pinotte got his Ph. D. I guess, and he decided to invest all his knowlegde in GUP Tech.

Joke aside, I may not be printing my own stickers anymore, but we do have a great selection and it's now available all in one place, in our online store, in the Sticker Shop tab. They are free shipping in North America so don't be shy, or just add them to your order. Check the store often, we add new designs somewhat frequently. It's not completely settled yet but I am thinking of adding a "surprise me" bundle, one where I would hand pick them.

BLOUP! ATTACK! THEY ARE EVERYWHERE!

YOU COULD GET A HANDMADE BLOUPY FOR FREE WHEN BUYING A BLOUP! FUZZ

It's not a secret, Guillaume has a thing for plushies, and we've declared said thing constitutional. After stumbling across a crochet frog on an online selling group, he ended up secretly asking for a custom order of mini poulps. They are the cutest, and they have been named Bloupies, or Bloopy for a single one.

For a limited time, order a Bloup! fuzz and get a cute Bloupy with it. We have 12 to give away, and the longer they stay here, the harder it is for Guillaume to let them go.

"But what are they for? What use do they have?" you might ask? They are as useless or as useful as you want them to be.

They have been crocheted by a stranger met on Facebook. I suppose you could add a keychain to them and risk hurting them, transforming them into an ornament, parking them in front of the shower door for a creepy feeling of being watched while getting clean or just let them sit on the table to serve as a conversation assistant during family dinner. Sky is the limit, really. Or poulp is the limit, for Poulp sake!

THERE IS NO SUCH THING AS TOO MANY GUITARS?

DON'T WANT MORE? RELIC THEM!

OF COURSE YOU WANT MORE, MORE THERE IS JUST SO MANY PLACE IN A HOME SOMETIMES!

Both Stratocasters were sent to France at the en of 2022 to get beaten and worn "a little". The one on the left, a signature SRV 1998 USA, used to be a 3-tone sunburst. Welcome Fiesta red!

The one on the right, a USA 1992 Floyd Rose Classic Series, used to be black (and boring to my taste). She came back a magnificent Graffiti Yellow and wow!

Your cannot really appreciate the full picture, because I chose to put only the body, but the headstocks and hardware is also relic'ed, as well as the back. If you follow GUP Tech on Instagram, you might have seen them.

Curious? Check relicartguitares.fr

#LAPETITEMAIN

IT TRANSLATES "THE LITTLE HAND". WHOSE HAND? PROF. PINOTTE, OF COURSE.

Since it appeared on the pick tin, Guillaume is literally obsessed with the little hand of Prof. Pinotte. I accidentally put it on the Wah the Nut design as well and it totally became a thing.

You won't stop seeing it everywhere just yet. You can buy it in our Sticker Shop, and I totally plan to also make some non-permanent that you can stick directly on you wall, without tearing anything apart. I will. Will you?

THE NEW PHASER HAS BEEN SERVED

LAST MONTH, IT WAS A BLIND SALE, NOW IT'S OFFICIAL, THE NEW PROF PINOTTE PHASER SOFT SERVE (PPSS) HAS LAUNCHED.

It's fresh and funky, available in purple, pink and green (the grey hasn't made it past the blind zone). You can enjoy it year-long, without any health risk. Which one are you?
