

SmartTrim™ TECHNOLOGY

Our liners feature a unique technology, allowing you to achieve a perfect fit seamlessly. Embrace Smart Trim for a quick, user-friendly, and hassle-free trimming experience.

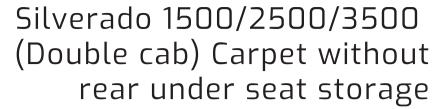

STEP ONE

Remove Floor Liner from box and allow it to lay out in a warm area. This allows the liner to regain its custom shape after being rolled up for shipping.

STEP TWO

Trim as shown by using sharp scissors or a carpenter's knife to cut along crevice in liner to remove area at top for vehicles with front bench seat.

Floor Liner trim patterns vary per vehicle make and model.

This piece should be trimmed to accomodate vehicles with a center console and/or removable seats.
