“Always Ahead of the Curve.”
The hand is one of the most complex and beautiful pieces of natural engineering in the human body. When Touring, wearing gloves is only half of the challenge when it comes to protecting them. Wearing the right gloves is the other half of the battle.

**What is Precision Fit Technology?**

Designed Exclusively by Olympia Sports, *Precision Fit Technology* is an Innovation that sets the Industry Standard For how a Moto Touring Glove should Fit and Feel with Lasting Performance.

Each style is engineered on a Functional Curve Pattern to reduce hand fatigue while the Radial Cut Palm Design eliminates material gathering and enhances finger flex. Add to this the quality of our Hides, Raw materials, and Workmanship, and you have a glove that lives up to it’s Catchphrase;

**Essential Gear for Hands**

Did You Know...........?

Over 1,000,000 bikers suffer from hand fatigue and finger numbness which can lead to further injury including Riders Palsy? Olympia gloves are built and engineered to reduce the risk of Riders Palsy by eliminating both numbness and tingling, allowing you to ride longer and stronger.
