

Badge Photo Guide:

- 1) Place a fresh sheet of paper flat on a table.
- 2) Lay badge & a ruler in the center of the paper.
- 3) Snap a few photos, using the paper to frame the shot.

a) Correct:

- Phone is held totally level, 4 sides of paper are parallel to 4 sides of the photo.

b) Incorrect:

- Phone is tilted back. This will distort the shape!

4) Place ruler over the badge, off center so the middle is just visible, and take another photo.

Done!

Place your order and Email both photos to info@jmleathersupply.com along with your order number.
