

# La Sultane de Saba

PARIS

A woman in a dark dress is walking away from the viewer through a large, ornate archway. The archway is decorated with intricate geometric and floral patterns in gold and white. The scene is set against a backdrop of a sunset over a body of water, with the sun low on the horizon, creating a warm, golden glow. The woman's silhouette is reflected in the water, and the archway's reflection is also visible. The overall mood is serene and evocative.

# Philosophy

## Travel – Authenticity – Fragrance - Technicity

Beyond the treatments with thousands scents and colors, through a perfect alchemy between wellness and authenticity, La Sultane de Saba reads as a travel book where creativity rhymes with discovery ...

An imaginary world reminding a wonderful get away, traditions, original creations and regular innovations, a luxury and authentic brand, a true travel of senses...

From French manufacturing only, each new creation reveals a rare mix of emotions.

Vanessa Sitbon inherited beauty secrets from the hammam that belonged to her family at Fès, in Morocco.

Faithful to her dreams and in memory to her mother, she created from 1998 the first professional and cosmetic products for SPA, inspired by ancestral cultures and traditions.

"I wished a brand reflecting what I have been taught, relying on invaluable beauty secrets: a unique combination of sensoriality and escape."

Vanessa Sitbon  
Founder of La Sultane de Saba
