IMPORTANT MUST READ BEFORE PROGRAMMING

- Make sure you have a Ghost Controls transmitter that is already programmed to operate the gate.
- You MUST CREATE a NEW PRIMARY PIN other than the factory default of ‘0000’ in order to use the keypad.
- ALL LEDs including the backlight LEDs must be OFF (Sleep mode) prior to enter any of the programming mode.

AUDIBLE INDICATORS

- Long beep (2-3 seconds) followed by 2 short beeps = PROGRAMING ERROR
- 3 long beeps, pause, then 2 short beeps = PROGRAMING SUCCESSFUL
- 2 beeps then turn OFF all LEDs = Unit is going into sleep mode due to inactivity.

A. INSTALLING THE BATTERIES: Use only C-Size Alkaline Batteries (2 needed). Energizer or Duracell recommended.

B. PROGRAMMING YOUR NEW PRIMARY PIN: (DO NOT GIVE OUT PRIMARY PIN FOR ACCESS)

PRIMARY PIN is needed to operate Partymode, 1-Key and Vacation Modes.

A. Press and Release PROGRAM BUTTON
   (the Partymode, 1-Key, Vacation LEDs come on)

B. Enter 0 0 0 0

C. Press and Release PROGRAM BUTTON

D. Enter 7 6

E. Press and Release PROGRAM BUTTON

F. Enter NEW 4 DIGIT PRIMARY PIN
   YOU CAN NOT USE 0 0 0 0

G. Press and Release PROGRAM BUTTON
C. TEACHING YOUR WORKING REMOTE TO THE KEYPAD: (MAKE SURE YOU CHANGED THE FACTORY DEFAULT PIN OF 0000): (NOTE-IF YOU ARE CLOSE TO THE GATE, IT MAY ACTIVATE DURING THESE STEPS.)

A. Press and Release PROGRAM BUTTON (the PartyMode, 1-Key, Vacation LEDs come on)

B. Place the transmitter as shown and press the transmitter button until the Party, 1-Key and Vacation LEDs on the keypad are blinking in alternating sequence. (If the transmitter has already been programmed into keypad, the unit will auto exit programing mode. Entering PRIMARY PIN is not required.)

C. Enter your PRIMARY PIN

D. Press and Release PROGRAM BUTTON

D. TEST PRIMARY PIN TO OPERATE THE GATE. (Make sure DIP#2 on System control board is to the right so that you can hear the WARNING from the gate opener system.)

A. Enter your 4 DIGIT PRIMARY PIN

B. Press SEND

Once the valid access PIN and SEND is entered, the keypad will stay active for 30 seconds. During this time, the keypad will send a ‘CYCLE’ signal to the gate upon a press of any number key. Each ‘CYCLE’ signal will cause the gate to operate as follow:

...OPEN, STOP, CLOSE, STOP, OPEN, STOP...

After 30 seconds of inactivity, the keypad will beep twice and enter Standby Mode. This is its normal condition after 30 seconds of inactivity.

E. ADD AN ACCESS PIN FOR GUESTS: (This pin can only open and close the gate and cannot be 0 0 0 0.)

A. Press and Release PROGRAM BUTTON (the PartyMode, 1-Key, Vacation LEDs comes on)

B. Enter your 4 DIGIT PRIMARY PIN

C. Press and Release PROGRAM BUTTON

D. Enter 2 2

E. Press and Release PROGRAM BUTTON

F. Enter NEW 4 DIGIT ACCESS PIN

G. Press and Release PROGRAM BUTTON
6. MOUNTING THE KEYPAD
   A. Keypad should be 60’ or less from the gate
   B. Keypad should be at least 10’ outside the path of the moving gate
   C. Keypad must be in sight of the gate

CHANGING YOUR 4 DIGIT PRIMARY PIN (CANNOT USE 0 0 0 0):

   A. Press and Release PROGRAM BUTTON
      (the PartyMode, 1-Key, Vacation LEDs comes on)
   B. Enter your PRIMARY PIN
   C. Press and Release PROGRAM BUTTON
   D. Enter 7 6
   E. Press and Release PROGRAM BUTTON
   F. Enter NEW 4 DIGIT PRIMARY PIN
      YOU CAN NOT USE 0 0 0 0
   G. Press and Release PROGRAM BUTTON

ADD ADDITIONAL ACCESS PINS (CANNOT USE 0 0 0 0):

   A. Press and Release PROGRAM BUTTON
      (the PartyMode, 1-Key, Vacation LEDs comes on)
   B. Enter your PRIMARY PIN
   C. Press and Release PROGRAM BUTTON
   D. Enter 2 2
   E. Press and Release PROGRAM BUTTON
ADD A TIME BASED TEMPORARY ACCESS PIN: (access pin will work for a certain number of days and cannot be 0 0 0 0)

A. Press and Release PROGRAM BUTTON (the PartyMode, 1-Key, Vacation LEDs comes on)
B. Enter your PRIMARY PIN
C. Press and Release PROGRAM BUTTON
D. Enter 2 3
E. Press and Release PROGRAM BUTTON
F. Enter NEW TIME BASED ACCESS PIN
G. Press and Release PROGRAM BUTTON
H. Enter the NUMBER OF DAYS Allowed
   EXAMPLE: for 5 days.... 0 5
I. Press and Release PROGRAM BUTTON

ADD A USE BASED TEMPORARY ACCESS PIN: (access pin will work for a number of uses)

A. Press and Release PROGRAM BUTTON (the PartyMode, 1-Key, Vacation LEDs comes on)
B. Enter your Primary Pin
C. Press and Release PROGRAM BUTTON
D. Enter 2 8
E. Press and Release PROGRAM BUTTON
F. Enter NEW USE BASED ACCESS PIN
G. Press and Release PROGRAM BUTTON
H. Enter the NUMBER OF USES Allowed
   EXAMPLE: for 5 uses.... 0 5
I. Press and Release PROGRAM BUTTON
DELETE AN ACCESS PIN: (deleted pin will no longer operate the gate)

A. Press and Release PROGRAM BUTTON
   (the PartyMode, 1-Key, Vacation LEDs come on)
B. Enter your Primary Pin
C. Press and Release PROGRAM BUTTON
D. Enter 3 2
E. Press and Release PROGRAM BUTTON
F. Enter ACCESS PIN to be DELETED
G. Press and Release PROGRAM BUTTON

DELETE ALL ACCESS PINS: (ALL access pins are deleted, Primary Pin is only one able to operate
the gate)

A. Press and Release PROGRAM BUTTON
   (the PartyMode, 1-Key, Vacation LEDs come on)
B. Enter your Primary Pin
C. Press and Release PROGRAM BUTTON
D. Enter 3 3
E. Press and Release PROGRAM BUTTON

ENABLE/DISABLE PARTYMODE: (this holds your gate open)

PartyMode Enable: The gate will stay open and autoclose (if enabled) is suspended. The gate opener will BEEP TWICE if attempting to close the gate while PartyMode is enabled.

NOTE: IF THE ABOVE DOES NOT DISABLE PARTYMODE TURN THE GATE OPENER OFF AT CONTROL BOX AND THEN BACK ON AND THIS WILL EXIT PARTYMODE.

A. Press and Release PARTY BUTTON
B. Enter your Primary Pin
C. Press SEND

Repeat the above steps to disable PartyMode. The gate opener will BEEP THREE (3) TIMES to indicate that it is exiting PartyMode.
ENABLE/DISABLE PARTYMODE SECURE OR 1-KEY MODE: (Pressing any # key on the keypad allows guest to enter your property while keeping it secure because the gate shuts after each guest when autoclose is set)

PartyMode Secure or 1-Key Enable: When enabled, the ‘1-Key’ will be ON and any number key will operate the gate. This mode is useful when guest is not require to use PIN to operate the gate such as when it is installed on the inside of the property for exit. We recommend that the Autoclose feature on the gate opener is enabled when using this feature.

A. Press and Release 1-KEY BUTTON
B. Enter your Primary Pin
C. Press SEND

Repeat the above steps to disable this Mode.

ENABLE/DISABLE VACATION MODE: (This keeps your gate closed and all remotes or codes to keypad are Denied access to property until taken off this mode)

Vacation Mode Enable: The gate will stay closed and all RF remote devices that control the gate will not be able to open the gate. The gate opener will BEEP TWICE if attempting to open the gate while Vacation Mode is enabled.

NOTE: IF THE ABOVE DOES NOT DISABLE VACATION MODE TURN THE GATE OPENER OFF AT CONTROL BOX AND THEN BACK ON AND THIS WILL EXIT VACATION MODE.

A. Press and Release VACATION BUTTON
B. Enter your Primary Pin
C. Press SEND

Repeat the above steps to disable VacationMode. The gate opener will BEEP THREE (3) TIMES to indicate that it is exiting Vacation Mode.

FACTORY RESET THE KEYPAD: (Do this only when Primary Pin has been forgotten)
- Remove one of the C Batteries from the keypad and then press any button on the keypad.
- Reinsert the battery, wait for the keypad to beep 2 times.
- Immediately press and release the PROGRAM BUTTON 3 times.
- The keypad will perform 3 long beeps followed by 2 short beeps to indicate successful factory reset.
- MUST perform ”PROGRAMMING THE KEYPAD FOR THE 1ST TIME” again.

<thead>
<tr>
<th>QUESTIONS</th>
<th>ANSWERS</th>
</tr>
</thead>
<tbody>
<tr>
<td>After entering my PIN, any key would open/close the gate.</td>
<td>This is normal. After valid PIN is entered and send, any number key on the keypad will operate the gate until the keypad returns to Standby Mode.</td>
</tr>
<tr>
<td>I did not enter a PIN, but any key would open/close the gate.</td>
<td>Make sure the ‘1-Key’ button LED (Green) is not on. If it is, then the keypad is in ‘1-Key’ mode. To disable 1-key mode, press the ‘1-key’ button, enter the PRIMARY PIN and press the SEND button. The ‘1-Key’ button LED should turn off.</td>
</tr>
<tr>
<td>Why are none of my keypad keys illuminated?</td>
<td>Keypad is in Standby Mode.</td>
</tr>
<tr>
<td></td>
<td>In Standby mode, the keypad LEDs are not lit up and the keypad requires the PRIMARY PIN or an ACCESS PIN to be entered.</td>
</tr>
<tr>
<td></td>
<td>When PRIMARY PIN is used the PartyMode, 1-Key and the Vacation Mode LEDs will be blinking in alternating sequence.</td>
</tr>
<tr>
<td>I entered a PIN, the gate opener beeps 1-time but will not open.</td>
<td>The PIN you entered is invalid. The 1-beep means the gate ‘sees’ the signal but the PIN is invalid.</td>
</tr>
<tr>
<td>I entered a PIN, the gate opener beeps 2-times but will not open.</td>
<td>VacationMode is enabled on the gate. See ENABLE/DISABLE VACATIONMODE or turn the gate controller OFF then back ON.</td>
</tr>
<tr>
<td>I entered a PIN, the gate opener beeps 2-times but will not close.</td>
<td>PartyMode is enabled on the gate. See ENABLE/DISABLE PARTYMODE or turn the gate controller OFF then back ON.</td>
</tr>
<tr>
<td>When I press any key, the keypad gives 3 long beeps follow by 2 short beeps.</td>
<td>The keypad is still in factory default setting. Please go to PROGRAMING THE KEYPAD FOR THE 1ST TIME and complete the steps.</td>
</tr>
<tr>
<td>The keypad gives 2 long beeps with all the LEDs flashing twice randomly or when I use the keypad.</td>
<td>The keypad is performing a power on check when battery 1st installed. Check and change the batteries if necessary.</td>
</tr>
<tr>
<td>Do I need to reprogram everything when I change the battery?</td>
<td>NO</td>
</tr>
<tr>
<td>Can I have more than one keypad to control the same gate?</td>
<td>YES</td>
</tr>
<tr>
<td>Why did my keypad stop working? or My keypad worked yesterday and now it does not work today?</td>
<td>Replace two C-size batteries in keypad.</td>
</tr>
