SINGLE GHOST MANOR SERIES GATE OPENER KIT | HDP1

Gate Opener Arm with 6' cable. System control box, controller, (1) estate bracket, (2) warning placards, and (1) premium 5-button remote control.

DUAL GHOST MANOR SERIES GATE OPENER KIT | HDP2

(2) Gate Opener Arms (first arm with 6' cable and second arm has a 50' cable). System control box, controller, (2) estate brackets, (2) warning placards, and (2) premium 5-button remote controls.

PREMIUM 10 OR 30 WATT MONOCRYSTALLINE SOLAR PANEL KIT | AXDP OR AX30

The monocrystalline 10W or 30W solar panels are a great solution for anyone who is installing a gate operator system in a remote location that does not have easy access to 120VAC power.

PREMIUM REMOTE TRANSMITTER | AXP1

The premium remote transmitter will control up to two separate GHOST CONTROLS® gate systems (single or dual) by providing the ability to open or close, enable or disable PartyMode® **PARTY**, determine gate opener system battery status **TEST**.

WATER RESISTANT REMOTE TRANSMITTER WITH MOUNTING BRACKETS | AXR1

The water resistant remote transmitter will control up to two separate GHOST CONTROLS® gate systems (single or dual). Includes universal mounting bracket for golf carts, ATVs, tractors, motorcycles, etc. Has large Glow-in-the-dark buttons for use with gloves.

STANDARD REMOTE TRANSMITTER | AXS1

The standard remote transmitter will control up to two separate GHOST CONTROLS® gate systems (single or dual).

PREMIUM WIRELESS KEYPAD | AXWK

The Wireless Keypad not only opens and closes your GHOST CONTROLS® gate, but you can create up to 40 unique codes for guests to access your property. The keypad also provides the ability for you to activate or deactivate PartyMode® **PARTY** plus additional features for your system only available through a keypad such as 1KEY® or PartyMode Secure® **1CS** and VacationMode™ **1V**. The Wireless Keypad can also be used as a wireless exit if placed inside of your property.

OUTDOOR MOUNTING PEDESTAL | AXGN

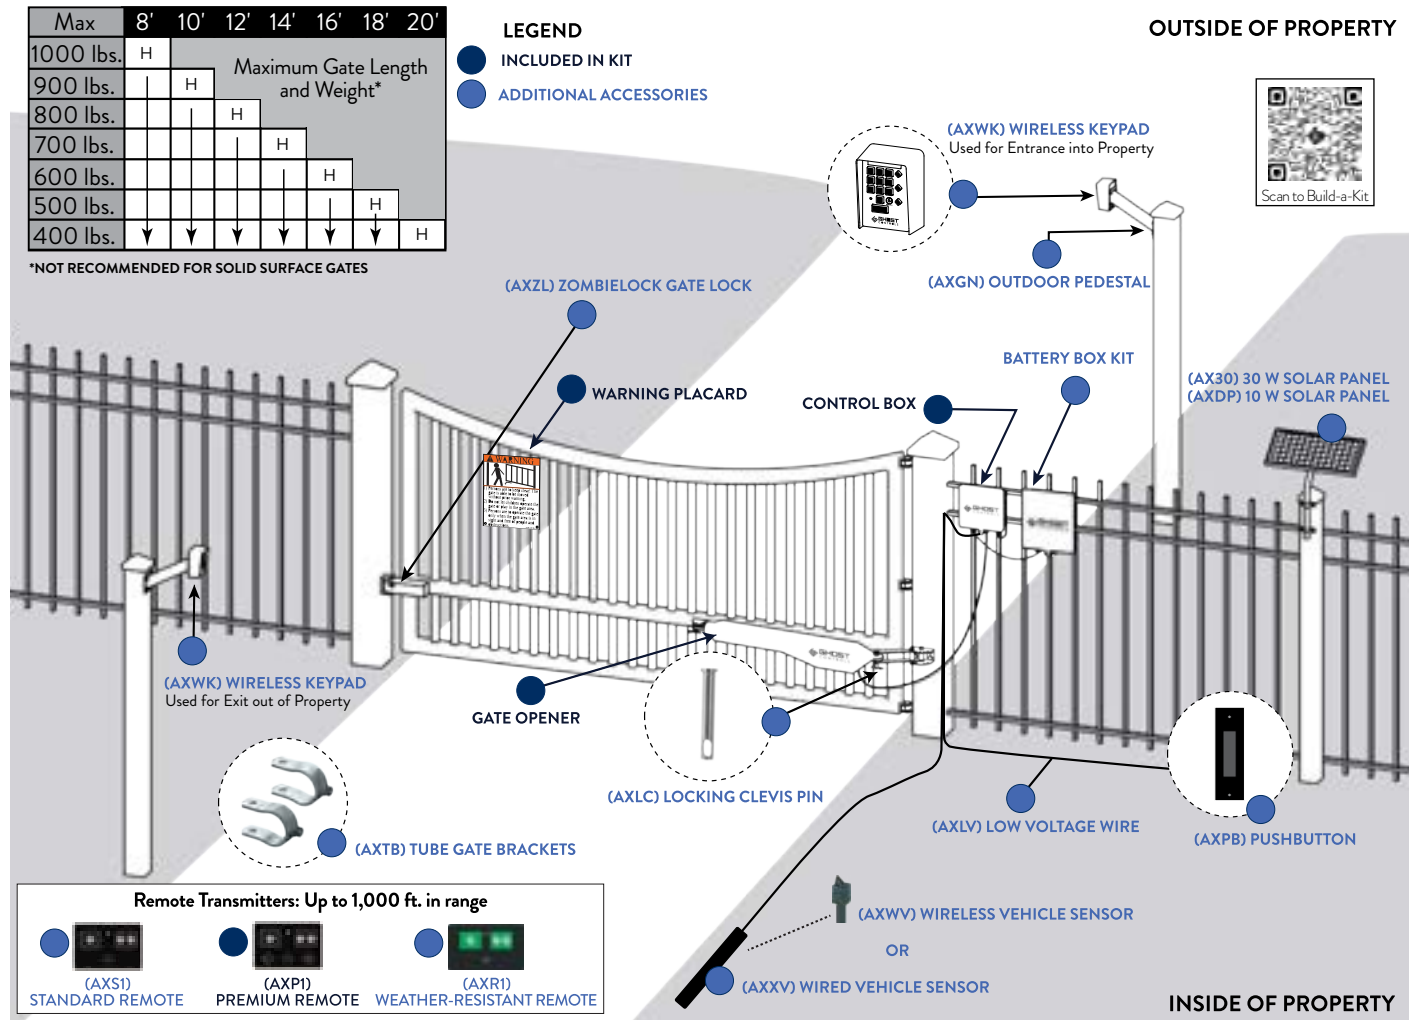

A simple and convenient solution for adding a Wireless Keypad to any post or column. This bracket is powder-coated aluminum and allows added convenience for access to a keypad from any vehicle.

LIMITED LIFETIME WARRANTY ON MOTOR AND GEAR ASSEMBLY!

ZOMBIELOCK® | AXZL

The patented ZombieLock® will provide your home with the latest in automatic gate lock technology with advanced feedback to your GHOST CONTROLS® gate controller.

UNIVERSAL TUBE BRACKET KIT | AXTB

Mounting bracket kits that will attach a variety of devices to 1-1/2"-2" tubes including tubular gates. These devices include gate opener kits, ZombieLock®, or any other device that needs to be attached to tubes.

WIRED PUSH BUTTON | AXPB

The standard push button will control a single or dual gate system up to 1,000' ft away with low voltage wire (not included).

WIRED VEHICLE SENSOR | AXXV

The GHOST CONTROLS® Vehicle Sensor is the easiest way to trigger your gate to open when a vehicle is trying to exit your property. This sensor is buried beneath the ground surface next to your driveway and connects into your gate controller box.

WIRELESS VEHICLE SENSOR | AXWV

The GHOST CONTROLS® Wireless Vehicle Sensor adds convenience for exiting your property and was designed for a quick and easy installation.

LOCKING CLEVIS PIN | AXLC

This pin secures the rear of the opener arm to the gate with a padlock (sold separately).
