This process assumes that *Remote A (Teaching Remote) is ALREADY capable of controlling Remote is in Learning Mode.

Indicates that the Learning Remote button (Remote B) pressed in this step is now programmed or Places remote transmitter into Learning mode.

Button 1’s ID is accepted by button 2. Both buttons should now work the same gate.

The new transmitter’s ID has been saved into the memory of the main system controller.

ADD AN ADDITIONAL REMOTE TRANSMITTER TO CONTROL THE GATE (*REMOTE A IS YOUR TRAINING REMOTE AND ALREADY CONTROLS THE GATE)

1. Press & hold the LEARN XMTR button (LEARNING) for at least 3 seconds until the LED goes = On. Remote LED is = On. This process assumes that *Remote A (Teaching Remote) is ALREADY capable of controlling the gate. This puts Remote B (Learning Remote) into Learning Mode.

2. Press & hold on Remote A, the Teaching Remote. LEDs on both Teaching and Learning Remote are = Flashing. *Remote A (Teaching Remote) is in Teach Mode, and Remote B (Learning Remote) is in Learn Mode.

3. Press & release on Remote B, the Learning Remote. Remote LED goes = Off. Indicates that the Learning Remote button (Remote B) pressed in this step is now programmed to operate the same gate as the Teaching Remote (*Remote A).

CLONE / COPY BUTTON 1’S ID TO BUTTON 2’S (BUTTON 1 ALREADY CONTROLS THE GATE)

1. Press & hold LEARN button on Remote for AT LEAST 3 seconds until the LED turns on. LED on Remote stays = On. Places remote transmitter into Learning mode.

2. Release the LEARN Button. LED remains = On. Remote is in Learning Mode.

3. Press and Release Button 1. LED should start (2 flashes a sec) = Flashing. Remote is sending button 1’s ID.

4. Press and Release Button 2. LED should go = Off. Button 1’s ID is accepted by button 2. Both buttons should now work the same gate.

CLONE / COPY BUTTON 2’S ID TO BUTTON 1’S (BUTTON 2 ALREADY CONTROLS THE GATE)

1. Press & hold LEARN button on Remote for AT LEAST 3 seconds until the LED turns on. LED on Remote stays = On. Places remote transmitter into Learning mode.

2. Release the LEARN Button. LED remains = On. Remote is in Learning Mode.

3. Press and Release Button 2. LED should start (2 flashes a sec) = Flashing. Remote is sending button 2’s ID.

4. Press and Release Button 1. LED should go = Off. Button 2’s ID is accepted by button 1. Both buttons should now work the same gate.
GENERATING A NEW TRANSMITTING KEY CODE

ASSEMBLING THE UNIVERSAL CLAMP TO ATTACH TO YOUR REMOTE: (can be used on golf carts, tractors, motorcycle handlebars, and even mounted outside on a post)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference
- This device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced technician for help.

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov.
