I would highly recommend Jessie to anyone wanting to capture their newborn's precious moments! We couldn't be happier with our newborn photoshoot. She made it so easy and comfortable to take photos of our little one. We will fondly cherish them for years to come.

Jessie produced both our maternity and new born photos. The whole process from beginning to end was stress free. She was amazing with our newborn and everything was highly professional and safety was her top priority. She worked confidently in a relaxed and caring manner with our little one and also with our dog to produce beautiful photos of our growing family. She is an incredibly gifted photographer, her work was delivered in a timely and professional manner. She has a wide variety of back drops and sets to choose from and likes to include personal touches to her work.

Thank you jessie for amazing photos to be treasured for a lifetime!
