

NEW

ENDURANCE YOKE

TRAIL RUNNING TECH MEETS BACKPACKING:

that's how the new MYSTERY RANCH Endurance Yoke was born. This innovative, running vest-inspired design gives the same quick, convenient accessibility built for trail runners to the backpacker. The stretch-mesh pockets on the shoulders and waist fit your water, extra calories, bear spray or anything you immediately need without having to stop and dig through your pack. It's also designed for maximum breathability and airflow, keeping you cool and comfortable, and built for endurance on the trail.

1

GAME-CHANGING FABRIC

Specialized foam and cool air mesh, moisture-wicking fabric allows air to flow while minimizing friction and heat to keep you cool.

2

BREATHABLE SHOULDER PADS

Thoughtful design and aerated fabrics promote optimal comfort and breathability.

3

DIRECTED AIR FLOW

The innovative frame and yoke integration minimize back-to-pack contact to maximize airflow by creating air channels in the yoke.

4

RUNNING INSPIRED VEST

Two stretch shoulder pockets provide convenient, quick access to your water or snacks so you can keep trekking.

5

MORE POCKETS WHERE YOU NEED THEM.

Two zippered stretch pockets on the waist belt to quickly grab or stash your phone or sunglasses.
