La versatilità del prodotto Woollane non risiede solo nei colori, ma anche negli spazi. In grado di decorare con un solo frame, tolgono il respiro le composizioni multiple ottenute ruotando, specchiando e moltiplicando a piacimento, assecondando la propria creatività, in accordo con l'ampiezza dello spazio da arredare. Essenze monocromatiche, stile minimal o colorato, Woollane è tutto questo!

According to the area to decor, you can compose it just as a single frame, or puzzle them by a square... You can mirror or rotate them, choose a single shape or a multiple composition. Woollane is able to decor a minimal space, with a black and white style. It also gives birth to monochromatic essences or coloured wall decorations.

L'intreccio creativo della lavorazione artigianale dei filati proietta ombre e sfumature sulla parete. Un vero prodotto tridimensionale. Questo il segreto che dona calore all'ambiente di cui si circonda e lo decora in maniera sublime. Non un quadro, non una carta da parati: Woollane!

The hand-made spinning drawings are able to project shadows on the wall, so it's a real 3D product. This is the secret to create a peculiar and authentic warm environment. It is an effect in the effect! Not a simple wall decor, not only a painting, nor a wall paper. This is the Woollane atmosphere!
