Epoxy Resin Gun Assembly Instructions

Assembly Steps

1. Lift up plastic tab on Epoxy Gun Handle.
2. Match up Pressure Handle so that circles align with Epoxy Gun Handle.
3. Press the metal lever on handle up and insert Pressure Handle. (Loop inserted first)
4. Use loop in Pressure Handle to pull completely through the handle. (Make sure lever is still pushed up)
5. Insert 2 Part Epoxy, be sure to match up circles with Epoxy Gun Handle.
6. Close plastic tab on Epoxy Gun Handle.
7. Remove plastic cap from Epoxy tip.
8. Insert nozzle into Epoxy tip, be sure to match up circles.
9. Turn Nozzle clockwise to lock into place.
10. Epoxy Resin Gun is ready for use.

Instructional Video

If you would like to watch a step-by-step instructional video, please use the camera on your mobile device to scan the QR Code below. This will open up a YouTube video link to walk you through the process.
