

ADJUSTABLE PALLET STAND

HELPS ELIMINATE BACK STRAIN AND FATIGUE

The **MECO OMAHA** Adjustable Pallet Stand has three comfortable working heights and access from all sides. By grasping the safety handle the Adjustable Pallet Stand can be set up easily by just one person. A lock prevents the stand from folding while in use.

Made of sturdy structural channel, this all welded unit is designed for use in areas requiring high capacity support tables such as shipping rooms, machine shops and maintenance departments. Folds down to 8³/₄".

Choose model APS2C with two swivel/two rigid 5" x 2" phenolic casters for easy movement within the plant or shop.

Gray enamel finish.
