

YARD RAMP Worksheet & Questionnaire

1. What is the lifting capacity of the forklift being used? _____ lbs
Is the forklift 3 wheel or 4 wheel? _____
Is the forklift Gas or Electric? _____

2. If not for forklifts, indicate what type of vehicles will be traveling over the ramp - gross weight, ground under-clearance and wheelbase measurement (front to back, center to center of wheels) of the vehicle:

3. Will the yard ramp be used multiple shifts per day? _____
4. Will the yard ramp be used from **Ground to Dock** or from **Ground to Truck**? Please circle one. _____
5. What is the dock height or truck bed height? _____ in.
6. What is the width of the dock door or truck door opening? _____ in.
7. Will this ramp need handrails? _____
NOTE: For dock heights exceeding 48", handrails may be required if the ramp will service pedestrian traffic
8. Do you need the ramp to be **Fixed** or **Mobile**? Please circle one. _____

NOTE: Ground to Truck ramps are quoted as mobile unless special conditions apply. Options available for Ground to Truck ramps include fixed or adjustable legs, hinged lip or attached dock leveler. If requesting any of these options, please note here: _____

9. **For Ground to Dock Applications Only:**

- A) How far is the dock door set from the edge of the dock? _____ in.
NOTE: This will determine whether recessed curbs or the addition of a dock extension are required for proper installation of the yard ramp
- B) Describe the travel surface on the dock approach? (concrete, asphalt, grass etc.) _____
- C) Will the ramp have a level approach to the dock? _____
If the approach is **not** level, please indicate on the appropriate diagram below:
