spazzola con fili antiscintilla

art.	art.	L mm	A mm	
017370801	1737BA	294	29	130

Strobili avvertiti in una batteria ricaricabile a ioni litio sono considerati come prodotti a scintille e non appropriati per l'uso in ambienti con rischio di esplosione.

Li-ion battery pack used on a rechargeable lithium-ion battery pack is considered as a spark-producing tool and is not suitable for use in explosive atmospheres.

Das spannungsfähige Li-ion-Akku-Gehäuse in Kombination mit dem Lithium-Ionen-Akku wird als Zündquelle betrachtet.

Any lithium-ion battery pack used with the lithium-ion battery pack is considered as a spark-producing tool and is not suitable for use in explosive atmospheres.
