Marsden M-110:

A high capacity column scale that's easy to use

The Marsden M-110 is the ideal scale for hospital clinics and wards. It has a high capacity, high accuracy, BMI function and has optional height measures and printers.

One scale, multiple functions

The Marsden M-110 is a Class III approved column scale with a high capacity and the ability to measure a patients BMI.

A range of height measures are available, including manual, automatic and digital. An optional printer means you can print a permanent record of patients' data – including date and time the readings were taken.

Additionally, there is optional Bluetooth connectivity so you can transfer your patients' weight and height data directly to a handheld device, computer or central database.

Perfect scale for outpatient departments

Optional automatic height measure

Optional thermal printer

Heavy duty and robust construction

Quick and easy to use

With an internal rechargeable battery, the M-110 can be used absolutely anywhere regardless of where the nearest plug socket is. An adaptor is also supplied for charging in between uses.

The scale has two displays which show weight, height and BMI.

Hold will hold the patients' weight reading on the display, and the Tare function allows you to remove unwanted weight.

Built to last

The Marsden M-110 is robustly built and is designed to last. This scale is backed by a full two-year warranty and will stay accurate and reliable if covered by a Marsden maintenance contract.
