Marsden M-610:

Portable weigh beams for weighing wheelchair-bound patients

The Marsden M-610 is a medically-approved solution for weighing patients in wheelchairs. It's portable, easy to use and sets up in seconds.

Weigh your patients easily

At Marsden, we believe that a wheelchair should not be a barrier to getting an accurate weight reading of a patient. Therefore, the M-610 is accurate, easy to use and has been made completely portable.

The indicator is easy to use and displays weight clearly (to the nearest 100g) – and low profile ramps ensure wheelchairs can roll on and off the beams with minimum effort.

The overall dimensions of the scale accommodate most designs of wheelchair.

This scale has optional Bluetooth connectivity for transferring weight and height data to a central database, smartphone, tablet or PC.

Class III Approved weighbeams

Easy to use function keys

Optional carry case

Accommodates large wheelchairs

DEN

Weigh a patient anywhere

With a rechargeable battery as standard the M-610 is a truly portable weighing solution. An AC adaptor is supplied, and fully charged, the battery will provide a minimum of 40 hours' use.

For transporting, the ramps can be folded in, and the beams carried by the built-in carry handles. Optional carry cases are also available for the beams and indicator.

The scale weighs up to 300kg in 100g increments; BMI can also be calculated.

Bluetooth is available as an option for wireless data transfer to a PC, device or central database. A printer can also be added allowing patients to take away a printed record of their weight, height and BMI reading along with the date and time the readings were taken.

Built to last

Like other scales in the Marsden range the M-610 is built to last. It comes with a two year warranty, and for extra peace of mind can be kept accurate and reliable with a full service contract.

Product Specifications

Capacity: 300kg
Graduations: 100g
Weight of scale: 8.5kg per beam
Power Supply: Mains/Rechargeable Battery
Dimensions: 1200 x 1200 x 95mm

Optional Extras:

Carry Case
Thermal Printer

Accuracy Assured
