

SBFI

"SBFI": STAINLESS STEEL FEET FOR SBxx LOAD CELLS UP TO 2500kg

Stainless steel articulated feet designed in order to obtain the best weighing performances, particularly suitable for creating scales with 4 load cells. Extremely compact and easy to install, the feet minimize the height of the platform and ensure a perfect decoupling of the lateral forces during the weighing operation.

The best solution
for advanced industrial
applications

MAIN FEATURES

- Applicable on SBxx series' shear beam load cells up to 2500kg.
- M12 thread.
- Designed especially for use on 4-cell platforms.
- Perfect decoupling of the lateral forces during the weighing operation.
- Extremely compact and simple to install, minimizing the height of the platform.
- Adjustable height.
- Completely AISI304 stainless steel construction.
- Non-slip rubber built into the base of the foot.
- To combine with BLKM12I bush.
