Philips
LED lighting

Leading the market today,
transforming the future.

Philips has been designing, developing and manufacturing LED lighting products resulting in a far reaching intellectual property portfolio and more than 20,000 time-tested installations. We have strengthened our leadership position and revenue generation in the LED Lighting market with solutions across segments, offices, retails, industries and public. We are leaders in technology and product performance in the LED lighting industry and are a confident choice of lighting specifiers across the globe.

Available in Round and Square form factors in 3000K and 4000K.

GreenLED I Spot

Semi recessed spot light with 80mm cut out for accent lighting in retail spaces.

Type	HSN Code	MRP (INR)
DN190B LED3S-6500 PSU WH	9405	1,400/-
DN189B LED3S-6500 PSU WH MB	9405	1,500/-

Also available in 3000K and 4000K

GreenLED Ultima Square

Ultra sleek recessed downlight for low height false ceiling in square profile.

Type	HSN Code	MRP (INR)
DN096B LED6S-6500 PSU WH	9405	1,580/-
DN097B LED10S-6500 PSU WH	9405	1,980/-

Also available in 3000K and 4000K

GreenLED Ultima Round

Ultra sleek recessed downlight for low height false ceiling in round profile.

Type	HSN Code	MRP (INR)
DN091B LED6S-6500 PSU WH	9405	1,580/-
DN092B LED10S-6500 PSU WH	9405	1,980/-

Also available in 3000K and 4000K

SkySpot COB

· New series of LED Spot fixtures specially designed for Commercial use
· Ideal for retail showrooms, hospitality, offices
· Elegant fixed spot with a focused 36 degree beam angle
· Long life with 30,000 burning hours with CRI>80
· Wide choice: Available in 7/12/18/22W, Round, 3000K & 6500K

Type	HSN Code	MRP (INR)

IP65 protection for GT and IP54 protection for CA variants.
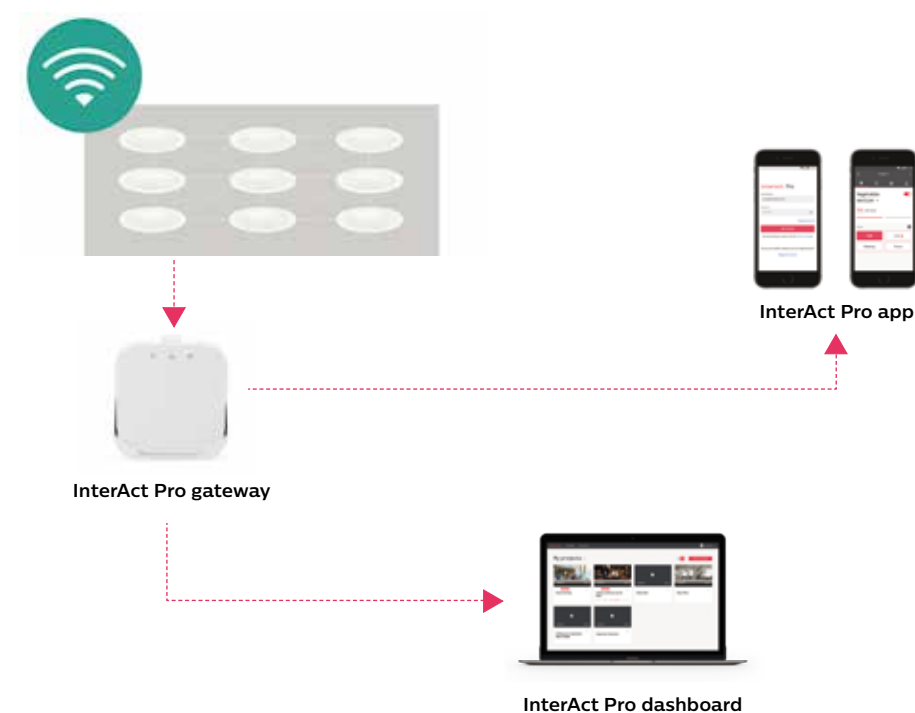

interact Pro

An intuitive app and dashboard that works with Philips InterAct Ready lamps and luminaries to bring the power of IoT.

Lights. Insights. Action.

It enables you to both control and receive data from the LED light points and sensors within the connected lighting system. You can program and automate light settings, while collecting data on where and how you use lighting. It's intuitive to set up and use. And it's the smart way to optimize energy savings.

How the connected lighting system comes together.

The **Interact Pro dashboard and app** work with a range of Philips luminaires and lamps and a set of wireless switches and sensors that are Interact Ready. You can customize the software's settings for specific workspaces. Whether you're connecting 20 light points or 200, Interact Pro helps everyone to work smarter.

InterAct Pro app

InterAct Pro gateway

InterAct Pro dashboard

Interact Pro connected lighting dashboard and app

Key benefits:

- Power of Personalization
- Energy usage Dashboards with failure reports
- Fast installation, no cables

How is InterAct unique?

InterAct Pro is a truly unique offering today in the market and suits all your lighting needs- whether you are building a new small office or a retail shop, or you are planning an upgrade from your existing Conventional Lighting to LED Lighting system (retrofit).

Completely Wireless Setup

Organizations today are specifically constrained in a retrofit setup to explore the benefits of connected lighting, as it requires wiring, layout changes and a deep renovation leading to significant work downtime. InterAct Pro is a completely wireless solution and hence does not require any new wirings or changes in your workplace.

Power of Simplicity

System complexity often scares organizations and workplace leaders to completely explore the benefits of connected lighting and this is specifically true for small spaces. With its Intuitive App and commissioning simplicity, InterAct Pro provides a unique connected platform.

Philips Interact Ready connected lighting

InterAct Pro software is designed to be affordable for small spaces. It works with any Philips Lighting connected LED lamps and luminaires that are Interact Ready. Sensors and wall switches are interoperable and upgradeable, meaning you're prepared for any changes the future might throw at you.

You can start saving energy straight away, with direct point-for-point replacement of conventional lights.

Standalone Solar LED Street Lighting System

Solar powered outdoor lighting products are ideal for lighting the area in remote location where the electricity is unavailable or erratic. Even in urban areas, these find great usage to reduce dependency on conventional power and contribute towards green energy. Reliable and long life makes this solution effective in fulfilling our present and future lighting requirements.

OccuSwitch

Occuswitch is a movement detector with a build-in switch. It will switch off the lights in a room or area when it is vacated and thus save energy. It can switch any load up to 6 A and control an office area of around 20 Sqm for small movement (e.g. desk work) and around 50Sqm for large movement (e.g. walking). It is smart daylight sensing technology offers additional saving through daylight override and daylight switching.
Daylight sensing
Occupancy sensing

Benefits

Plug and play   Smart savings   High quality

Standalone Controls

Lighting automation controls and sensors

LED Lamp

Philips TrueForce LED Road

Philips TrueForce LED Road is the world's first direct (Plug&Play) replacement SON-T LED lamp for street lighting, making it easy to upgrade existing installations to LED without a need to rewire or change a luminaire. It is the simplest way to start saving on energy consumption and improve light quality, while keeping your initial investment low.

Type	HSN Code	MRP (INR)

Philips TrueForce LED Industrial and Retail Highbay Retrofit lamps

Philips TrueForce LED Industrial and Retail (Highbay – HPI/SON/HPL) lamps give you a quick and easy payback solution to replace HID lamps in Highbay application. The solution gives you the LED benefits of energy-efficiency and long-lifetime, plus they come for a low initial investment. Lamp design allows retrot HID lamps with TrueForce LED lamps with no gear loss and high power factor. Multiple beam angle options and high color rendering index enhance the lighting distribution while creating a comfortable, safe and high productivity environment.

Philips TrueForce Core LED Industry and Retail (Highbay– HPI/SON/HPL) lamps

Philips TrueForce Core LED Industry and Retail (Highbay– HPI/SON/HPL) lamps give you a quick and easy payback solution to replace HID/CFLi lamps in industrial application. The solution gives you the LED benefits of energy-efficiency and long-lifetime, plus they come for a low initial investment. Lamp design allows to replace HID/CFLi lamps with no gear loss and high power factor.

True Force Post Top Lamps

Philips TrueForce LED lamps provide an easy LED solution with a fast payback to replace High-Intensity Discharge (HID) lamps. These lamps bring the energy efficiency and long lifetime benefits of LED to HID replacement, with a low initial investment delivering instant savings. With the right lamp size and light distribution, customers can easily retrofit TrueForce LED lamps into their existing system, thereby enhancing the light quality without having to change the fixtures or sacrifice the light effect.

MASTER LEDspot ExpertColor MV range

MASTER LEDspot MV ExpertColor creates a warm and comfortable ambience for hospitality venues, homes and restaurants. It creates ambience with superior lighting that has a customised spectrum, high CRI and deep dimming features. The result being a beautiful lighting experience. The innovative, trimless lens design will also suit almost any interior decor with its clean and neat look. In addition, you can take advantage of the full ExpertColor family, which also includes LEDspot LV and LEDspot Par lamps.

MASTER LEDspot LV
(Dimmable & Non Dimmable)

Delivering intense accent beam, MASTER LEDspot LV is an ideal retrofit solution for spot lighting. MASTER LEDspot LV is designed to replace halogen or incandescent spots. It realises natural colors, enables cozy and comfortable ambience for residential, hospitality and emphasises the beauty of merchandise in retail. New smaller housing provides perfect fitting with majority of luminaires in a market with a MR16 GU 5.3 holder. It not only employs Philips' patented solution to guarantee the broadest possible compatibility with standard 12V halogen electronic transformers, it also delivers high beam intensity which is equivalent to halogen MR16 spots. The dimming function enables to create the desired atmosphere and it works with broad selection of dimmers. Its high SDCM ensures stricter color consistency, that is maintained over product life. MASTER LEDspot LV delivers huge energy savings and minimises maintenance cost without any compromise on light quality and lifetime, enabling residential and business owners to achieve a return on their investment within short period time.

MAS LEDspot LV AR111

With its new perfect-fit design, the Master LEDspot LV AR111 now works with most of G53 luminaires as a true retrofit solution. The lamp creates a brilliant visual effect for retail and hospitality applications such as shops, showrooms and galleries. The high quality light brings out the true colors in merchandise and emphasises its beauty. It also lasts long, with a strong lumen and color maintenance. The beautifully designed lamp offers a well-defined beam with a multitude of beam angles to suit various applications. Not only does it employ the Philips patented solution to ensure it is compatible with a broad selection of standard 12V halogen electronic transformers, it also delivers high beam intensity which is equivalent to halogen AR111 spots of 50W, 75W or 100W.
