KIA Stinger Front Splitter Installation Guide

Please carefully review the instructions prior to installation. We highly recommend professional installation at a reputable auto body shop.

1. Remove the factory keys/pins from the places circled in **RED**

2. Apply 3M double sided tapes as shown in the image above and attach the front lip on the bumper.

3. For standard type front splitter, refer to image 1-1
For advanced type front splitter, refer to image 1-2.
Drill holes to the places indicated in **RED** circles and install with bolts, Re-insert the factory keys/pins removed during step 1.

Installation complete!
