## KIA Stinger Side Splitter Installation Guide

*Please carefully review the instructions prior to installation. We highly recommend professional installation at a reputable auto body shop.*

1. Position the side skirts to your desired location and hold them using double-sided tapes. It is recommended to heat the double-sided tape with a dryer or heat gun at low heat before fixing it.

- 2 For standard type side splitter, refer to image 1-1  
For advanced type side splitter, refer to image 1-2.  
Drill holes to the places indicated in **RED** arrows.

Installation complete!
