with Rise of Ix expansion and Dune: Imperium Deluxe Upgrade Pack
Assembly Guide

Tips and tricks

- To assemble each tray you need a wood glue for extra strength. (We recommend Titebond 2 Wood Glue or Beacon 527).
- Please make sure you assembled each tray correctly before gluing it together.
- Use stationery knife to cut the bits that connect details to the frame.
- Remove the details from the frame with a rotational motion along the axis formed by the bits you just cut.
- Use stationery knife and sandpaper to remove all the remaining connection bits.
- Please note that the engraving must be on the outside of the boxes.
- You may fix the box with rubber bands after gluing it. This will save you time and simplify the assembly.
- Make sure to remove the protective covering from BOTH sides of the acrylic pieces. Use a hairdryer for easier removal of it if necessary. Just heat the acrylic surface a little to remove the covering much easier!
- Leave your finished insert overnight to dry completely.

Assembly Supplies

Wood-glue

Stationery knife

Hammer

Cotton swab

Rubber bands

Hairdryer

If something is damaged or broken, please do not return the whole set. Contact us directly on email info@smonex.com or our website smonex.com. Any questions or issues with the Smonex products, we'll do our best to help you. We want our customers to be completely satisfied.

IMPORTANT: Assemble each tray one by one. Please DO NOT take out all the parts from the sheets and mix them. Even though some parts look similar, they are not interchangeable.
