Assembly Guide

### Tips and tricks

- To assemble each tray you need a wood glue for extra strength. (We recommend Titebond 2 Wood Glue or Beacon 527)
- Please make sure you assembled each tray correctly before gluing it together.
- Use stationery knife to cut the bits that connect details to the frame.
- Remove the details from the frame with a rotational motion along the axis formed by the bits you just cut.
- Use stationery knife and sandpaper to remove all the remaining connection bits.
- You may fix the box with rubber bands after gluing it. This will save you time and simplify the assembly.
- Leave your finished insert overnight to dry completely.

### Assembly Supplies

Wood-glue

Stationery knife

Hammer

Cotton swab

Rubber bands

If something is damaged or broken, please do not return the whole set. Contact us directly on email [info@smonex.com](mailto:info@smonex.com) or our website [smonex.com](http://smonex.com). Any questions or issues with the Smonex products, we'll do our best to help you. We want our customers to be completely satisfied.

**IMPORTANT:** Assemble each tray one by one. Please DO NOT take out all the parts from the sheets and mix them. Even though some parts look similar, they are not interchangeable.
