Dear [REDACTED]

We accept your PMTAs<sup>1</sup> for the tobacco products identified in Appendix A. Note that attributes in Appendix A may display converted values. Refer to Appendix B for a list of amendments received in support of your applications.

Your PMTAs will move forward in the review process. FDA may request to conduct inspections, which may include manufacturing inspections and clinical and nonclinical research inspections, to verify the information submitted in your PMTAs. The results of these inspections may also be used to verify the information submitted in any additional applications that reference the same manufacturing and research information. To ensure that the appropriate records and personnel will be available during the inspections, FDA will notify the point(s) of contact identified prior to the inspection start date.

We will notify you if samples are required for independent testing and verification. If samples are required, you will be notified by letter of the number of samples required and the laboratory address where samples must be received. All requested samples should be received by the laboratory identified in the letter within 14 calendar days of the request.
