

Product: **SONAX Xtreme Brilliant Wax 1 Hybrid NPT**

Article Code: **201 100/200**

Formula Code: 2012 2769

Product Description: Liquid special wax, based on the new Hybrid Net Protection Technology, lastingly protects the paintwork against adverse environmental effects. Protects new and nearly new paintwork, as well as paintwork pre-polished with SONAX Xtreme Polish & Wax 3. The formula contains an innovative blend of different waxes, intensified by a special hybrid component which enhances the waxes durability. The result is a brilliant high gloss, intensive freshening up of the colours and outstanding protection.

Directions for Use:

- Wash the car with SONAX Gloss shampoo.
- Shake bottle before use.
- Apply thinly and rub in evenly with a SONAX Application sponge, SONAX Polishing cloth or soft cloth, exerting slight pressure
- Allow to air dry briefly, then wipe to a streak free finish with a SONAX Microfibre cloth exterior.

Please Note:

- For maximum protection we recommend 4 applications annually.
- Protect against extreme cold.

Chemical Classification: Aqueous emulsion made from silicones, waxes and solvents. Contains no abrasives.

Specific Data:

Appearance:	Light blue fluid
Density:	0.92 – 0.93 g/ml
Viscosity:	3 – 7 Pa s (Brookfield, Sp. 4, 20 r.p.m.)
pH:	7 – 8

Packaging:

250 ml PET-Bottle	(201 100)
500 ml PET-Bottle	(201 200)

Safety Data: See safety data sheet
