

Product: **SONAX Xtreme Polish & Wax 2 Hybrid NPT**

Article Code: **207 100/200**

Formula Code: 2071 2693

Product Description: Mild polish with a medium polishing effect, for use against fine scratches and dull haze. The optimum combination of extremely fine polishing granules, supplemented by the innovative Hybrid Net Protection Technology, restores new brilliance and depth of colours to greying paintwork and protects it lastingly.

Directions for Use:

- Wash the car and wipe dry.
- Shake bottle before use.
- Apply Xtreme Polish & Wax 2 with a SONAX P-Ball or SONAX Application Sponge onto the dry paintwork, distribute evenly and polish immediately, exerting some pressure. Always treat part sections (e.g. door, half of a bonnet) in one operation.
- Allow to air dry briefly, afterwards use a SONAX Microfibre cloth exterior to remove polish residues and polish to a streak free finish.

Please Note:

- Do not apply in direct sunlight or on hot paintwork.
- Product can also be applied with a polishing machine.
- Protect against extreme cold.

Chemical Classification: Emulsion of silicones and waxes, contains mild abrasives.

Specific Data:

Appearance:	Blue fluid
Density:	0.92 – 0.93 g/ml
Viscosity:	5 – 15 Pa s (Brookfield, Sp 6, 20 r.p.m.)

Packaging:

250 ml PET-Bottle	(207 100)
500 ml PET-Bottle	(207 200)

Safety Data: See safety data sheet
