SECTION 1 – IDENTIFICATION: PRODUCT IDENTIFIER/CHEMICAL IDENTITY

1.1 PRODUCT IDENTIFIER: SONAX XTREME Polish + Wax 2 "Hybrid NPT"

1.2 PRODUCT CODE: 02072000

1.3 RELEVANT IDENTIFIED USES OF RELEVANT IDENTIFIED USES:	THE MIXTURE AND USES ADVISED AGAINST: Car care product with medium abrasive effect against fine scratches and haze.
RESTRICTIONS ON USE:	None known.
1.4 DETAILS OF THE SUPPLIER OF 1	THE SAFETY DATA SHEET:
SUPPLIER NAME (Australia):	Mega Moto Pty Ltd
ADDRESS (Australia):	401 Coolart Road, Somerville, Victoria, 3912
TELEPHONE NUMBER (Australia):	1800 476 629; 0490 513 632
WEBSITE (Australia):	www.sonax.com.au
SUPPLIER NAME (New Zealand): ADDRESS (New Zealand): TELEPHONE NUMBER (New Zealand WEBSITE (New Zealand):	Mega Moto Ltd Level 2, 18 Broadway, Newmarket, Auckland 1023):0800 476 629 www.sonax.co.nz
E-MAIL:	info@sonax.com.au (Aust and NZ)
1.5 EMERGENCY TEL. NUMBER:	Australia: 0490 513 632; New Zealand: 0800 476 629; Poisons Information Centre (Aust 131 126; NZ 0800 764 766)
1.6 HSNO DETAILS: HSNO APPROVAL NUMBER: HSNO GROUP TITLE:	Not Applicable. Not Applicable.

SECTION 2 – HAZARD(S) IDENTIFICATION

2.1 CLASSIFICATION OF THE HAZARDOUS CHEMICAL:

GHS CLASSIFICATION HAZARD

CLASS & CATEGORY: Under the Model Work Health and Safety Regulations, the product would not be classified as hazardous.

2.2 LABEL ELEMENTS INCLUDING PRECAUTIONARY STATEMENTS:

SIGNAL WORD:Not Applicable.PICTOGRAMS:Not Applicable.HAZARD STATEMENTS:Not Applicable.

PRECAUTIONARY STATEMENTS:

PREVENTION:	P102 - Keep out of reach of children.
RESPONSE:	Not Applicable.
STORAGE:	Not Applicable.
DISPOSAL:	Not Applicable.

2.3 OTHER HAZARDS: The mixture has a low order of toxicity associated with it. May cause gastric irritation if swallowed. Excessive exposure may result in mild irritation to the skin or respiratory system as well as possible irritation to the eye. People with pre-existing skin conditions, such as eczema or dermatitis, should take precautions so as not to exacerbate the condition. As for all chemical products, persons should not expose open wounds, cuts, abrasions or irritated skin to this material.

SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS

INGREDIENTS	CAS NUMBER	Concentration % W/W	GHS Classification
Distillates, petroleum, hydrotreated light**	64742-47-8	10% - <15%	Asp Haz 1 - H304 AUH066
Naphtha, petroleum, hydrotreated heavy***	64742-48-9	10% - <15%	Flam Liq 3 - H226 Asp Haz 1 - H304 STOT SE 3 - H336 Chron Aq Tox 3 - H412
Complex mixture of additives	-	To 100%	Not Applic

Not Applic = Not Applicable * Please see Section 15 of this SDS for the full text description of the Label Elements. **The actual component as nominated by the manufacturer is Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, <2% aromatics fraction which under the Hydrocarbon Solvents Producers Association (Europe) is covered by CAS Number 64742-47-8.

*** The actual component as nominated by the manufacturer is Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics fraction which under the Hydrocarbon Solvents Producers Association (Europe) is covered by CAS Number 64742-48-9.

SECTION 4 – FIRST AID MEASURES

4.1 DESCRIPTION OF NECE INGESTION:	SSARY FIRST AID MEASURES: Rinse mouth out with water. Due to the blend of ingredients present, the manufacturer recommends that if swallowed, do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. If irritation develops or persists or vomiting has occurred after ingestion, seek medical assistance.
EYE:	If in eyes, hold eyelids apart and flush the eye immediately with large amounts of running water. Continue flushing for at least 15 minutes Check for contact lenses. If there are contact lenses, these should be removed after several minutes of rinsing by the exposed person or medical personnel if it can be done easily. After flushing, if irritation develops or persists, seek medical assistance.
SKIN CONTACT:	If skin or hair contact has occurred remove any contaminated clothing and footwear, wash skin or hair thoroughly with soap and water. If irritation develops or persists, consult a Doctor.
INHALATION:	If affected, remove the patient from further exposure into fresh air, if safe to do so. If providing assistance, avoid exposure to yourself - only enter contaminated environments with adequate respiratory equipment. Once removed, lay patient down in a well-ventilated area and reassure them whilst waiting for medical assistance. If not breathing, provide artificial respiration and seek immediate medical assistance. If unconscious, place in a recovery position and seek immediate medical assistance. If irritation develops or persists, consult a Doctor.
PROTECTION FOR FIRST AIDERS:	No personnel shall place themselves in a situation that is potentially hazardous to themselves. As the product contains hydrocarbon components, if the person has ingested the product, do not use direct mouth-to-mouth resuscitation techniques. Always ensure that you are wearing gloves when dealing with first aid procedures involving chemicals and/or blood.
FIRST AID FACILITIES: 4.2 MOST IMPORTANT SYM ACUTE:	Eye wash fountain and safety showers, or at least a source of flowing water, are recommended in the area where the product is used. PTOMS & EFFECTS, BOTH ACUTE & DELAYED, CAUSED BY EXPOSURE: Ingestion or inhalation of vapours may lead to irritation of the mouth and respiratory tract. Ingestion may lead to nausea and diarrhoea. Eye contact may lead to localised burning, redness and tearing. Skin contact may lead to redness or itching.

SECTION 4 – FIRST AID MEASURES Continued

CHRONIC:

Skin contact may aggravate/exacerbate existing skin conditions, such as dermatitis.

4.3 INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NECESSARY: ADVICE TO DOCTOR: Treat symptomatically. As the product contains hydrocarbon components, if vomiting has occurred after ingestion, the patient should be monitored for adverse effects to ensure that the product has not aspirated into the lungs.

SECTION 5 – FIRE FIGHTING MEASURES

5.1 EXTINGUISHING MEDIA: SUITABLE MEDIA:

Use extinguishing media appropriate for surrounding fire. Use carbon dioxide, alcohol resistant foam, dry chemical or water fog. Spray down fumes resulting from fire.

UNSUITABLE MEDIA: Avoid using full water jet directed at residual material that may be burning. **5.2 SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE:**

COMBUSTION HAZARDS: Combustion of the residual material after evaporation of the aqueous component may produce oxides of carbon and silicone, as well as small amounts of smoke and irritating vapours.

5.3 ADVICE FOR FIREFIGHTERS:

FIRE: This product is not flammable under conditions of use. Once the aqueous component has evaporated, the residue may be combustible. The product has a Flash Point of 42°C. However, the manufacturer has tested the product using the Sustained Combustibility test ISO 9838/UN manual of tests and criteria (32.5.2) and found that the product exhibits no self-sustained combustion. Therefore, the product does not rate as a Flammable Liquid Dangerous Good under the requirements. Keep storage tanks, pipelines, fire exposed surfaces, etc. cool with water spray.

HAZCHEM CODE: Not applicable.

EXPLOSION: No information to indicate that the product is an explosion hazard. Extinguish all sources of flame or spark. Closed containers may explode when exposed to extreme heat.

EQUIPMENT: In the event of a fire, wear full protective clothing and self-contained breathing equipment with full-face piece operated in the pressure demand or other positive pressure mode.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES:

- **PERSONAL PROTECTION:** For small spills, wear Nitrile gloves, glasses/goggles, boots and full-length clothing. During routine operation for a small spill a respirator is not required. However, if mists or vapours are generated, an approved organic vapour/particulate respirator is required. For large spills, or in confined spaces, a full chemically resistant body-suit is recommended and the atmosphere must be evaluated for oxygen deficiency. If in doubt about potential oxygen deficiency wear self-contained breathing apparatus.
- **CONTROL MEASURES:** Ventilate area and extinguish and/or remove all sources of ignition. Stop the leak if safe to do so. CAUTION: The spilled product will be slippery. Avoid contact with the spilled material.

EMERGENCY PROCEDURES: In the event of a spill or accidental release, notify the relevant authorities in accordance with all applicable regulations.

6.2 ENVIRONMENTAL PRECAUTIONS:

SPILL ADVICE: Do not allow product to enter drains, surface water, sewers or watercourses - inform local authorities if this occurs.

SECTION 6 – ACCIDENTAL RELEASE MEASURES Continued

6.3 METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING UP:

- **CONTAINMENT:** Contain the spill and absorb with a proprietary absorbent material, sand or earth. Caution: The spilled product will be slippery. For large spills prepare a bund/barrier/dyke ahead of the spill to confine the spill and allow later recovery. If there is the possibility of spills to enter drains, surface water, sewers or watercourses ensure bunding, or that drains are covered, to minimise the potential for this to occur.
- **CLEANING PROCEDURES:** Having contained the spill, as mentioned above, collect all material quickly and place used absorbent in suitable containers. Caution: The spilled product will be slippery. Follow local regulations for the disposal of waste. For large spills that have been bunded, the material can be pumped into vessels and returned for reprocessing or destruction. Personnel must wear gloves, goggles or glasses, boots and full-length clothing during cleaning procedures. Wash contaminated area and objects with detergent and water after spill has been cleared. Rinse the cleaned area with water. Do not allow wash water or rinsings to enter drains, surface water, sewers or water courses.

SECTION 7 – HANDLING AND STORAGE, INCLUDING HOW THE CHEMICAL MAY BE SAFELY USED

7.1 PRECAUTIONS FOR SAFE HANDLING:

SAFE HANDLING: Avoid contact with the product by using appropriate protective equipment such as gloves, glasses or goggles and full-length clothing. Prevent small spills and leakage to avoid slip hazards. Properly dispose of any contaminated rags or cleaning materials in order to prevent fire hazards. Eating, drinking, and smoking should be prohibited in the area where this material is handled, stored and processed. Workers should follow good personal hygiene practices, such as washing hands before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Keep containers tightly closed when not in use. Always keep in containers made of the same material as the original one. Prevent product from entering waterways, drains or sewers.

7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATABILITIES:

SAFE STORAGE: Store in a dry, well ventilated, frost-free area away from direct sunlight, ignition sources, oxidising agents, strong acids and alkalis, foodstuffs, animal feeds and clothing. Always keep in containers made of the same material as the original one. Containers must be kept upright to prevent leakage. Protect the packaging from damage. When the packaged material is intact the product is deemed to be of limited hazard. Protect from frost. The recommended storage temperature is 20°C.

INCOMPATIBILITIES: Avoid oxidising agents, including strong acids, and strongly alkaline materials.

SECTION 8 – EXPOSURE CONTROLS & PERSONAL PROTECTION

8.1 EXPOSURE CONTROL MEASURES: EXPOSURE LIMIT VALUES: Exposure standards for the product have not been established. 8.2 BIOLOGICAL MONITORING: No data available. 8.3 CONTROL BANDING: No data available. 8.4 ENGINEERING CONTROLS: Use product in a well ventilated area. Where reasonably practical this should be achieved by the use of local exhaust ventilation and good general extraction. Special ventilation is not normally required. However, in enclosed spaces or at elevated temperatures, mists or vapours may be generated and exhaust ventilation may be required to maintain airborne concentrations below an

acceptable level that does not cause irritation.

SECTION 8 – EXPOSURE CONTROLS & PERSONAL PROTECTION Cont'd

8.5 INDIVIDUAL PROTECTION MEASURES:

EYE & FACE PROTECTION:	As a precaution, wear safety glasses/goggles to avoid eye contact. Use eye protection in accordance with AS 1336 and AS 1337.
SKIN (HAND) PROTECTION: SKIN (CLOTHING)	If there is the potential for extended contact with the material, wear gloves to provide hand protection. Nitrile gloves are recommended.
PROTECTION:	During normal operating procedures, long sleeved clothing is recommended to avoid skin contact. Soiled clothing should be washed with detergent prior to re- use.
RESPIRATORY PROTECTION: Use only in well-ventilated areas. During routine operation a respirator is no required. However, if mists or vapours are generated, an approved half face organic vapour/particulate respirator is required. Use respirators in accordance with AS 1715 and AS 1716.	
THERMAL PROTECTION:	Not applicable.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

9.1 PHYSICAL AND CHEMICAL PROPERTIES:

3.1 1 TI SICAL AND CILLING	RET NOT ENTIES.
APPEARANCE:	Light blue liquid.
ODOUR:	Characteristic.
ODOUR THRESHOLD:	No data available.
pH:	No data available.
MELTING/FREEZING POINT:	Not applicable.
INITIAL BOILING POINT:	Typically 100°C.
BOILING RANGE (°C):	Typically 100°C - 270°C.
FLASHPOINT (°C):	Typically 42°C. However, the product displays no self-sustained combustion
	according to the Sustained combustibility test ISO 9038/UN manual of tests and
	criteria (32.5.2)
EVAPORATION RATE:	No data available.
FLAMMABILITY LIMITS (%):	Lower Explosive Limit: 0.6 volume%; Upper Explosive Limit: 7.0 volume%.
	(Main ingredient data).
VAPOUR PRESSURE(mmHg)	No data available.
VAPOUR DENSITY:	No data available.
DENSITY (g/mL @ 20°C):	Typically 0.92 - 0.93.
SOLUBILITY IN WATER(g/L):	Partly miscible.
PARTITION COEFFICIENT:	No data available for n-octanol/water.
AUTO-IGNITION TEMP (°C):	No data available.
DECOMPOSITION TEMP (°C)	: No data available.
VISCOSITY (cSt @ 100°C):	No data available.
VISCOSITY (cSt @ 40°C):	Typically >20.5.
. ,	

SECTION 10 – STABILITY AND REACTIVITY

10.1 REACTIVITY:	The product does not pose any further reactivity hazards other than those listed in the following sub-sections.
10.2 CHEMICAL STABILITY: 10.3 POSSIBILITY OF	Stable under recommended storage and handling conditions (see section 7).
HAZARDOUS REACTIONS:	Keep away from strong oxidising agents, such as strong acids, chlorates, nitrates and peroxides. Hazardous polymerisation does not occur.
	: Observe the usual precautionary measures for handling chemicals. Do not heat the container or leave the container open when not in use.
10.5 INCOMPATIBLE MATERIALS: 10.6 HAZARDOUS DECOMPO PRODUCTS:	Avoid oxidising agents, strong acids and strong alkaline materials. DSITION Hazardous decomposition products are not expected to form during normal storage requirements. See Section 5.2 for Hazardous Combustion products.

SECTION 10 – STABILITY AND REACTIVITY Continued

SECTION 11 – TOXICOLOGICAL INFORMATION

11.1 INFORMATION ON TOXICOLOGICAL EFFECTS:

The product is a mixture and test data is not available for the product as a whole.

The product is a mixture and test data is not available for the product as a whole.		
	Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, <2% Aromatics Oral - LD ₅₀ (Rat): >5,000 mg/kg Dermal - LD ₅₀ (Rabbit): >5,000 mg/kg Inhalation - LC ₅₀ (Rat, vapour, 8 hours): >5,000 mg/m ³	
	Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclic <2% Aromatics Oral - LD ₅₀ (Rat): >5,000 mg/kg Dermal - LD ₅₀ (Rabbit): >5,000 mg/kg Inhalation - LC ₅₀ (Rat, vapour, 4 days): >4,951 mg/l	
11.2 SWALLOWED:	This product is expected to have a low order of toxicity associated with it when ingested. It may cause slight irritation to the mouth, throat and digestive tract. During normal usage ingestion should not be a means of exposure.	
11.3 SKIN CORROSION/ IRRITATION:	This product is not expected to exhibit Dermal Corrosivity/Irritation based on the available data and the known hazards of the components. May be mildly irritating to the skin. Due to the presence of the Hydrocarbon components, repeated exposure may cause skin dryness or cracking. Correct handling procedures incorporating appropriate protective clothing and gloves should minimise the risk of skin irritation. People with pre-existing skin conditions, such as dermatitis, should take extreme care so as not to exacerbate the condition.	
11.4 SERIOUS EYE DAMAGE IRRITATION:	This product is not expected to exhibit Eye Irritation or Serious Damage/ Corrosivity based on the available data and the known hazards of the components according to the manufacturer. Symptoms may include localised burning, redness and tearing. Correct handling procedures incorporating appropriate eye protection should minimise the risk of eye irritation.	
11.5 RESPIRATORY OR SKIN SENSITISATION:	This product is not expected to be a skin sensitiser based on the available data and the known hazards of the components. This product is not expected to be a respiratory tract sensitiser, based on the available data and the known hazards of the components.	
11.6 GERM CELL MUTAGENICITY:	This product is not expected to be mutagenic based on the available data and the known hazards of the components.	
11.7 CARCINOGENICITY:	This product is not expected to be a carcinogen based on the available data and the known hazards of the components.	
11.8 REPRODUCTIVE TOXICITY:	This product is not expected to be a reproductive hazard based on the available data and the known hazards of the components.	
11.9 SPECIFIC TARGET ORG		
SINGLE EXPOSURE:	This product is not expected to cause organ damage from a single exposure, based on the available data and the known hazards of the components. This product is not expected to pose an irritation hazard at ambient temperature or under normal handling conditions. Not classified as a respiratory irritant, however inhalation of vapours or mist (generated at elevated temperatures or by mechanical action) may cause irritation to the nose, throat and respiratory system. This product contains a component that is rated as May cause drowsiness and dizziness, however this is present at amounts below the Concentration cut off levels.	

Concentration cut-off levels.

SECTION 11 – TOXICOLOGICAL INFORMATION Continued

11.10 SPECIFIC TARGET ORGAN TOXICITY (STOT) -

REPEATED EXPOSURE: This product is not expected to cause organ damage from prolonged or repeated exposure based on the available data and the known hazards of the components.

11.11 ASPIRATION HAZARD: This product is not expected to be an aspiration hazard, based on the available data and the known hazards of the components. However, as the product contains hydrocarbon components, if vomiting has occurred after ingestion, the patient should be monitored for adverse effects.

11.12 OTHER INFORMATION: No information available.

SECTION 12 – ECOLOGICAL INFORMATION

12.1 ECOTOXICITY:	The manufacturer nominates the following Ecotoxicity data:
	Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclic <2% Aromatics LL ₅₀ (Oncorhynchus mykiss, 96 hours): >10 - <30 mg/L EL ₅₀ (Daphnia magna, 48 hours): >22 - <46 mg/L EL ₅₀ (Pseudokirchneriella subcapitata, 72 hours): >1,000 mg/L NOELR (Pseudokirchneriella subcapitata, 72 hours): <1 mg/L
	Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclic <2% Aromatics LL ₀ (Oncorhynchus mykiss, 96 hours): 1,000 mg/L EL ₀ (Daphnia magna, 48 hours): 1,000 mg/L EL ₀ (Pseudokirchneriella subcapitata, 72 hours): 1,000 mg/L
	There is no data available for the product as a whole. The product contains a component that is rated as Harmful to aquatic life with long lasting effects, however this is present at amounts below the Concentration cut-off levels. Based upon the calculated values the product is not expected to be rated.
12.2 PERSISTENCE & DEGRADABILITY:	There is no data available for the product as a whole. According to the manufacturer, the Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclic <2% Aromatics component has a biodegradability of 89% at 28 days, whereas the Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclic <2% Aromatics component has a biodegradability of 69% at 28 days.
12.3 BIOACCUMULATIVE POTENTIAL:	There is no data available for the product as a whole.
12.4 MOBILITY IN SOIL: 12.5 OTHER ADVERSE	There is no data available for the product as a whole. The manufacturer states that the Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclic <2% Aromatics component is highly volatile and will partition rapidly to air.
EFFECTS:	There is no data available for the product as a whole. The product is partly miscible in water. Do not allow product to enter drains, surface water, sewers or watercourses - inform local authorities if this occurs.

SECTION 13 – DISPOSAL CONSIDERATIONS

13.1 DISPOSAL METHODS: PRODUCT:	The product should not be released to the environment, so any unused material should be recycled wherever possible or be disposed of as hazardous waste at an appropriate collection depot. Spilled product that cannot be recovered should be absorbed and then shovelled into a suitable waste container, such as a plastic drum and then be treated as a solid waste. Follow Government regulations for disposal of such waste. All unused, waste or spilled product must be taken for recycling or disposal by suitably licensed contractors in accordance with Government regulations. Do not pour leftover product down the drain.
CONTAINERS:	Empty containers may contain residual product. They should be completely drained and then stored until reconditioned or disposed of. Empty containers should be taken for recycling or disposal through suitably licensed contractors in accordance with Government regulations. Where the containers are of metal construction they should not be pressurised, cut by a grinder, welded, brazed, soldered, drilled or exposed to heat, flames or other sources of ignition. Closed metal containers when exposed to such conditions/treatment may explode causing serious injury or death.

SECTION 14 – TRANSPORT INFORMATION

This product is not regulated for land, sea or air transportation.

14.1 LAND (ADG Code): UN NUMBER: UN PROPER SHIPPING NAME: TRANSPORT HAZARD CLASS(ES):	Not applicable Not applicable
CLASS(ES): PACKAGING GROUP: ENVIRONMENTAL HAZARDS: SPECIAL PRECAUTIONS FOR USER:	Not applicable Not applicable Not applicable Not applicable
