

**Product:** SONAX ProfiLine NP 03-06

**Article No:** 208 141 / 300 /500  
**Formula No:** 2080 2468

**Product description:** Silicone free polish for professional polishing of dull and scratched surfaces, especially scratch resistant paint, with buffing machine. The use of special nano-abrasives give good scratch removal (cut) in combination with high gloss. Does not create holograms or swirl marks in the paintwork.

**Application:**

- if necessary use SONAX FS 05-04 to remove deeper scratches
- shake bottle before use
- apply a small amount onto polishing pad medium (Art. 493 000) and distribute evenly. Buff with machine at low speed (600 - 800rpm) for a short moment with higher pressure.
- Then increase speed to app. 1500 rpm and buff to high shine with smooth movements and moderate pressure.
- do not polish a longer time at the same place to avoid heating
- remove residues with microfibre cloth

**Composition:** Blend of special abrasives in a petrol based emulsion. Free of silicones and waxes

**Specific data:**

Appearance:	white liquid
Density:	0.98 -0.99 g/ml
Viscosity :	25-45 Pas (Brookfield, Sp. 6, 20 rpm)
pH:	---

**Packaging:**

250ml PE/PA-bottle	(208 141)
1l PE/PA-bottle	(208 300)
1l PE/PA-canister	(208 500)

**Safety data:** See safety data sheet
