

Product: SONAX PROFILINE Leather cleaner foam

Article Code: 0281 3000

Formula Code: 2810 0021

Product Description: Extra strong foam cleaner for high quality leather furnishings made from pigmented smooth leather. Removes even stubborn dirt without wearing out or attacking the leather. Pleasant neutral fragrance.

Directions for Use:

- First remove loose dirt carefully with vacuum cleaner.
- Fit the provided sprayer onto the bottle.
- Spray on product and with a SONAX Textile & leather brush, distribute immediately over the leather and work in thoroughly.
- Have a bucket of clean water ready to hand.
- Moisten a microfibre cloth and use it to wipe off dirt/cleaner residues. Wring the cloth out in the clear water and repeat wiping off until the surface no longer feels tacky.

Please Note:

- The leather should not become saturated during the cleaning.
- Do not use cleaner on hot surfaces and do not allow to dry out.
- First test product for material compatibility on an inconspicuous area.
- Not suitable for aniline and nubuck leathers or suede.
- Protect against extreme cold.
