

Product: **SONAX SX90 PLUS**

Article Code: **474 141 /505**

Formula Code: 4740 0392

Product Description: The universal trouble shooter for car, household, hobby or workshop. Lubricates, loosens stuck fast connections and eradicates squeaking and creaking noises. Contact spray for ignition systems. Also suitable for cleaning and maintenance of fine-mechanical instruments and machines. The transparent and neutrally scented protective film lastingly protects bare metal parts against corrosion. Dissolves and removes tar, glue residue and sticky labels.

Directions for Use:

- Shake product before use.
- Spray on SX90 Plus as a thin film.
- When used on electrical systems, ensure that appliance is free of current and let product air for 2 minutes prior to reassembly and putting into operation again.

Chemical Characterisation: Rust inhibitor, lubricant and cleaning additives in mineral oil

Specific Data:

Appearance:	opaque fluid
Density:	0.835 – 0.845 g/ml
Viscosity:	12 – 15 s (Ford cup 4mm)
Operating temperature:	-10 °C → +200 °C

Packaging:

PET-spray bottle 250ml	(474 141)
PE-canister 5L	(474 505)

Safety Data: See safety data sheet
