

Product: SONAX Felt pad 127

Article Code: 493 300

Formula Code: ---

Product Description: Polishing pad for applying SONAX Glass polish with a polishing machine. Also suitable for localized polishing of heavily scratched areas with SONAX Abrasive polish or SONAX ProfiLine Fine abrasive paste.

Directions for Use:

- Position the pad with the black velcro side concentrically onto the back-up plate 115mm.
- Moisten with a little water.
- Apply a small amount of polish.
- Polish at low to medium rotational speed polish, exerting medium pressure without tilting.
- As soon as the polishing pad starts running dry, immediately spray on some water.

Please note:
Use a soft brush to clean the pad. Put the dry pad onto the polishing machine, turn on and touch the surface of the pad with the brush. Do not wash with water!

Chemical Classification: Wool felt with velcro

Specific Data:

Appearance:	White felt
Diameter:	127 + 2.5 mm
Thickness:	3 + 0.4 mm
Density:	0.36 g/cm ³
