

Product: SONAX HYBRID WOOL PAD 143 DA

Article Code: 493 800

Product description: Effective abrasive pad for orbital polishing machines with 125-mm backing plate for removing deeper scratches and matting. Reduces the polishing time because of high abrasion capacity and keeps the polishing temperature low, without splashing. Diameter of 143 mm. Ideal for use with SONAX PROFILINE ExCut. Long service life.

Directions for Use: Place the pad on the backing plate and apply as many small drops of polish as possible. Clean the pad by blowing out with compressed air. If required, wash the pad with water and SONAX MultiStar.

Chemical Characterisation: 85% wool, 15% polyester.

Specific data: Diameter of 143 mm

Packaging: Cardboard
