

SAFE keeper bag

Canada's deposit and cash bag...

1. Face-to-face closure: simple, natural way the bag closes.
2. VOID messages appear when tampered with by freezing or chemicals.
3. Thermochromic ink changes colour when heated.
4. Random printed black diamonds prevent attempts to replace the seal.

5. Anti-Static foil liner releases without attaching to operator.
6. Dual sequential numbering and barcodes are large and easy to read.
7. Printing along the side welds prevents tampering by cutting.
8. In-Stock!
