

Certified Organic Paw Rescue

UNSCENTED

ITEM # PN277
UPC # 814551024763
SIZE: 3 oz.
CASE PK QTY: 8

WHY IT'S BETTER:

- ✓ USDA Certified Organic
- ✓ Chemical-Free
- ✓ Paraben-Free
- ✓ Fragrance-Free
- ✓ No Synthetic Dyes or Perfumes
- ✓ No Preservatives or Additives
- ✓ Easy Application Container
- ✓ Made in the USA

BENEFITS:

- Protects from heat, cold & moisture
- Hydrates, soothes & promotes healing
- Heals & restores dry & cracked paw pads
- Safe if licked - food-grade ingredients

DIRECTIONS:

Apply to calloused, rough, or hardened paw pads. Rub into paws and massage gently to soften and heal. Made with food grade ingredients so it's safe if licked, no protective cone required unless instructed by a veterinarian. For damaged paws, apply daily, once healed, apply as needed. Store in a cool dark location as contents can liquify in extreme heat.

Certified Organic Ear Wash

ITEM # PN228
UPC # 814551023650
SIZE: 8 fl. oz.
CASE PK QTY: 12

WHY IT'S BETTER:

- ✓ USDA Certified Organic
- ✓ Paraben-Free
- ✓ No Synthetic Dyes
- ✓ Fragrance-Free
- ✓ No Synthetic Dyes or Perfumes
- ✓ No Preservatives or Additives
- ✓ Made in the USA

BENEFITS:

- Reduces wax buildup
- Removes debris
- Alcohol-free and non-stinging
- Cleans and soothes raw, irritated, itchy, greasy and smelly ears
- Reduces itching & discomfort

DIRECTIONS:

Hold ear flap up to expose and help straighten out the ear canal to clean the ear. Squeeze ear wash into your dog's ear. Use enough to fill the ear canal. Some of the wash may spill out. DO NOT put the tip of the bottle into the ear. Continue to hold the ear flap up and gently massage the base of the ear for about 30 seconds. This allows the ear wash to break up the debris that is in the ear canal. Wipe away debris from the inner part of the ear flap and the upper ear canal using a clean cotton ball or sterile gauze. Allow your dog to shake his head. This allows the remaining ear wash and debris from the ear canal to come out. DO NOT use a cotton-tipped applicator. Doing so can damage the ear canal and/or eardrum. Repeat the cleaning procedure as often as recommended by your veterinarian.
